

Dear Dick,

12/20/92

While I do not know that you have a personal interest or on behalf of C & G I told you I'd be sending you a letter Livingstone wrote Groden. There are two, both enclosed.

The undated one is the one of which I knew when I wrote you.

Livingstone seems to be paging his <sup>correspondence</sup> ~~letters~~ as a continuous single letter. The most recent diatribe I got from him has 7 and 8 where 3 and 5 are on the enclosed.

In that one he associated me with those he referred to as "killers," leaving little doubt those he had in mind.

Groden did not give me these copies. My source asked his permission and got it. The letter faxed 12/9 refers to "criminal slander."

He refers to an association with the FBI in both letters.

He emphasized this in his phone calls to me.

If you give these to C & G I'd prefer not to be associated with them in any use they may make of them. His harassment is wasting much time for me and there is no telling what he is telling others when he lies to me as much as he does, invents what is not true of spreads it for others and who can know what other mischief he fosters that can in the future make problems. If in FBI files very serious problems.

He has assailed me with distorted versions of what I've said to only two others neither of whom has been in touch with him.

Of course they can have spoken to others who then spoke to him.

He now says that his "investigation" of me is required for his own protection in his investigation of the two conspiracies, one to kill JFK and the other to ruin him.

In his sick mind he has me involved in both!

Best,

PARROT:

Thanks for taking the bait. They wanted you in court. Forever. Your suit convicts you of several federal crimes. What a fool you are. You never should have messed with that publisher. New York is our ground.

Next you will find yourself in prison for threatening witnesses, criminal slander, copyright violations, perjury, conspiracy, extortion, theft, forging the document you attached to the suit, organized criminal activity, and you name it.

I guess you know the FBI is breathing down your ass.

Under the doctrine of clean hands you cannot even enter court when you come in with a false statement.

Why, you even made criminals out of your family, forging bank signature cards, suborning perjury of your sons.

The great thing about this is that it got your true character out into the open. What a ball of slime you are.

So long, sucker!

Groden:

You are hereby warned that any further interference with the witnesses will result in the harshest Federal response.

You never understood who I am. Your man attacked Bobby with a knife and cut him, and had him record false statements. Everything you are doing is reported to the FBI, and police statements were made. Your law suit convicts you of Federal crimes *in se*. In my view, you have never been anything more than a criminal. All of your bunch use the JFK case to mask criminal activities with regard to copyright violations and RCIO statute violations. You may think that you are self righteous and Mr. Clean, but you are fundamentally a *criminal*, and turning your children and wife into criminals doesn't help your case, forging bank signature cards and all the rest, claiming every sort of thing against me. It never occurs to you that once people see what you really are, your character was clear. You are nothing but a criminal.

From that moment forward....
