

Dear ~~Wrona~~ both,

12/5/92

Perhaps this enclosed copy of a letter to Wrona may have a few things that might be of interest to you.

I can't remember that I ~~was~~ ever mentioned to you a possible book, Agent Oswald.
or perhaps TOP SECRET Oswald.

Wouldn't be nearly as long!

He did have Top Secret clearance. I was able to prove this after Oswald in New Orleans was published.

A career of that nature was his boyish dream.

It would also be a CIA book.

And how it kept the Warren Commission from taking even secret testimony from Nosenko.

After he told the FBI his KGB suspected Oswald was a US agent in place.

And then considered how they would either kill him with no trace or ^dgive him crazy.

Beginning, and here my records are abundant, by trying to keep him from defecting and being able to tell the US that the KGB suspected Oswald and that Oswald was actually very anti-USSR inside the USSR.

Hope all of you are OK,

Faircliff
