

Dear Dick,

4/24/91

We appreciate your phoning yesterday to see how we are. Thanks.

I then mentioned that perhaps at some point David may have an interest in part ~~of~~ of 62-117290, the sections I have of the FBI's end of its correspondence with the House assassins committee relating to its King investigation. (Hardly the word for it!)

I know now that some sections have not been provided and I'll ask Helen to check and list what is missing.

Section 21 has 13 parts. I've just finished skimming the third. I'd have liked to take time to read it all but didn't, couldn't. It includes much of the nasty political stuff on King. Meaning what HSCA asked to see.

In this I've notice a few things that in various ways might be of usefulness to David. I'll enclose them. In a few moments we have to leave to shop and we expect company not long after we return so I'm not including explanations. If he does not see why I'm sending these if he'll return them or copies I'll write and explain. 66

~~One~~ <sup>one</sup> that may not be obvious go back to my alerting him the ~~misuse~~ misuse of the ~~files~~ files to hide electronic surveillances. On these I see for the first time I can recall that there is a sub-66 file for dissemination. Because one of those was disclosed to me in my King lawsuit I'll ask Helen to copy my copy so I can compare them, see if this was masked and withheld.

This section also includes one of the nasty FBI memos on King that it disseminated.

Some of the records are from <sup>Hoover's</sup> King "Official and Confidential" files. I think I have what was disclosed on King. It may be that Lesar has or can get and copy all of that special office file that was disclosed. Hoover's former secretary, Helen Ganley, testified that she destroyed his "Personal and Confidential" files.

I have seen no reference to Malcolm X in this file, meaning what I have of it. There have been a few references to NOL but nothing that took my attention.

Best to you all,

*Harold*
