Dear Mr. Gondolfo,

The only reason we do not yet have the truth is because there are not more people like you! I very much thank you for what you are doing, plan to do and for your letter, forwarded by Dell.

Before going to New Orleans, I encourage you to wait until you hear from Jim Garrison or a member of his staff. They are very, very busy. They also do need help, but the question of timing is vital.

We have sent you PHOTOGRAPHIC WHITEPAGES under separate cover. Enclosed is a flyer telling you about our other books. There will be at least two more. You will be notified when they appear.

Among your tape recordings are some that might be helpful to me. For example, those including Liebel and Nizer (I have the debate he and I had on MOR but nothing else). If you can supply copies, I'd appreciate it very much. I hope to be able to debate Liebel sometimes. He will face others, but not me. He ran last time I went to California, didn't keep dates to which he had agreed. So, knowing everything he said can be very helpful to me. I doubt if Nizer will ever again debate me, but I'd like to have a record of his lies. My recorder will take 1 7/8 or 2 3/4 besides 7 1/2.

If your clippings are organized so you can locate things by date, that, too, could be helpful if you can make copies or lend them for me to make them. I have loaned some of mine out and had them not returned. One I am anxious to get another copy of is a statement by Rankin about Christmas 1964, saying it would be enough if the Commission could prove that only two shots were fired. This was in the N.Y. Times.

I think your idea of petitions is an excellent one if you can get it done widely enough, if only in the New York area. Another way you can help is by getting people to read what is available, so they can inform themselves.

The book on which I am now working, the fifth, deals extensively with the autopsy and the suppressions. The suppression is not by the Archives, although there have been such charges, but by the involved agencies, particularly the FBI. The autopsy is a special case I discuss in detail in the coming book. Some of the material is open to those who qualify to do research. I am working on the fourth book to be based on these documents, of which I have well over a thousand pages of copies.

Please excuse the haste, for there are not enough hours or days, and I use each of them as efficiently as I can toward the end we all want. I ask your indulgence about the typing and hope you can make it out. Again, my sincere respect for your courage and your willingness. This is the true expression of responsible citizenship in a democratic society.

With respect and thanks,

sincerely,

Harold Weisberg

I have tried to obtain your book, Whitemash 3 - The Photographs, but have been unable to find it in any of the bookstores in New York. Enclosed find money order which will cover the cost of book, and please send me a copy as soon as possible. I have read your first 2 books, Whitemash I & II. I have also read all of the books of the critics of the Warren Report, and I have the 26 volumes of testimony and "evidence" of the Warren Commission and the Warren Report 888 page book also at home. In addition, I have approximately 27 hours of tape recordings of programs on TV & radio in which yourself, Mark Lane, Wesley J. Liebler, Louis Nizer, Edward J. Epstein, Jim Garrison, and others, pro & con Warren Report have appeared in debate. From the day of the tragic assassination I have saved ~~all~~ and collected all available material information, also including all newspaper reports, inadequate and incomplete though they may be, and I have saved all of this material I have mentioned in chronological order and listing. I consider you, Mark Lane, Jim Garrison among others, the true patriots of this country. I include myself. We all loved our late president. We are all fed up and

(2)  
Disgusted and angered with the way the government has tried to suppress the truth about the facts surrounding, and culminating in President Kennedy's death, you have labored hard and long and zealously, so has Mark Lane, so has Jim Garrison, and so have I. I tried to get in touch with Mr Lane but was unsuccessful. I wanted his advice on something I have thought of doing. I have written a letter to Mr. Garrison in New Orleans and am awaiting his reply. I sent him a letter last week. In this letter, I told him that my 2 week vacation from my job at Coca Cola Bottling Company starts on the 15th of September, and that I have plans to travel to New Orleans with the expressed desire to, in some way, assist him. I have offered my tape recordings and services to him, free of charge of course, because as Mark Lane said, and rightfully so, "this case is more important than any personal considerations". I agree, and I know you do also. I also have a plan to have circulars printed up and to distribute these circulars to the people of this country, with the expressed intention of obtaining petitions drawn up in large numbers, and in this way, added

to other ideas I <sup>(3)</sup> have in mind, force the  
Government & the "powers that be" into this country  
to re-open the National Archives, and to  
de-classify documents for one, and to allow  
the viewing of photographs and X-rays of  
the President's body so that we, as citizens  
of this country can ascertain the facts  
of the assassination. This is a democratic  
society and a free country. As the "Constitution  
of the United States" asserts, it is a government  
"of the people, by the people, and for the people."  
Therefore, I agree that so-called "Consensus  
from Above" be imposed upon in this case.  
In my opinion, and it is a very considered  
opinion, we have been "spoon-fed" by the  
various governmental agencies of this country,  
the conclusions of a false report, the Warren  
Report. I, along with many others, some of  
whom I know personally, don't want to  
wait another 70 years or so, as the Government  
says we should, to find out everything concerning  
my president's slaying. I intend to take steps  
to know right now, as soon as is possible!

Mr. Weisberg, I respect your views. They coincide  
with my own on this matter. I would  
sincerely hope that you will reply to me,  
~~in this~~ by letter or whatever, and possibly  
advise me as to what we, as Americans

must do. I think that too much time has gone by without the majority of people in this country making their feelings known and insisting that the Archives, for one thing, be opened to the public and to have a thorough investigation, this time. There are "times in history" when the people must speak up to right wrongs. Let history record the fact that at this time, they did! The government is representative of the people in a free society. There are many things further I could say about this situation but it would only be redundant and I'm sure you are intelligent as evidenced in your books. Please get in touch with me on this important matter. I will be awaiting your reply. I remain Ted Gandolfo.

P.S. I, of course, will also be awaiting a copy of your latest book, Whitewash #3, The Photographs. I am sure that the 6 dollars money order which is enclosed will be enough to pay the price of the book. I don't know exactly what the exact price is.  
I hope you.  
Ted Gandolfo.
