Dear Paul,

All though you never, as I requested, sent me your recent newsletter which included my answer to your burning question re "What evidence did Garrison have when he arrested Clay Shaw that he (SHAW) had conspired to kill JFK." Someone sent me a copy. In the first place, since you did ask that question, and since I sent you the truthful answer, why didn't you publish the actual answer I sent you, instead of quoting just the opening portion of my letter and nothing else, when, in fact, where you ended a quote from my reply, you completely omitted publishing the very next sentence I wrote, which was, in full, the answer you said you were seeking??? Isn't that sort of strange for you to NOT publish that very next sentence I wrote you which was the actual answer?? Why didn't you publish it?? I guess we both know why you didn't, don't we, and other critics agree as to why you didn't do so.

In that abridged (answer-wise) newsletter, you appealed for anyone to send you my newsletter. Enclosed find one, my latest, which I trust that even you will agree contains recently discovered, by myself, ABSOLUTE PROOF, that Robert Blakey, your friend, completely covered up Garrison's evidence of direct CIA complicity in the JFK assassination which Garrison, in early 1978, gave to Cliff Fenton, who headed a 5 man investigative team for the House Assassinations Committee, evidence which Blakey completely suppressed from the people. As you read the enclosed (my) newsletter revealing proof of this odious fact for the very first time ever published, I wonder if (you have my permission) you will publish this blockbuster, information in your next ^{or} hopefully, or following, newsletter for the edification of your readership. Yes, I truly wonder if even you won't find and admit that this enclosed dynamite information certainly DESERVES to be divulged to the people by yourself.

I and several other critics will be anxiously awaiting if you will indeed publish the crucially important aspects of this coverup of CIA involvement in the JFK murder which chief counsel, proveably now, received from Fenton through Garrison directly.

Yes indeed, let's see if you publish this bombastic info, Paul.

As you can see, I've sent copies of this Dec., 1986 (my) newsletter to, besides my many subscribers, to the CIA, FBI, "Justice Dept", Blakey, you, Garrison, Lane, Sprague, Brussell, Wecht, et al.

If and when you publish this info, please, this time send me a copy and I'll send you a check covering costs immediately. You can regard this (my) enclosed newsletter as a Christmas free gift from me. And now, the ball is in your hands as to whether you'll put this enclosed info into your newsletter. We all will be waiting to see if you have the honesty and good faith and character to do so. We'll see now.

Wondering where you're coming from,

I remain,
curiously yours,

Ted Gandolfo.
