### A CITIZEN'S DISSENT— SPREAD THE WORD

A recent Gallop Poll determined that 87% of the American people do NOT accept the conclusions reached by the Warren Commission that Lee Harvey Oswald was a "lone assassin" of President John F. Kennedy in Dallas on November 22, 1963. As the result of intensive investigations conducted by the House Select Committee On Assassinations, overwhelming evidence of conspiracies in both the JFK and King murders now resides in their files. Chief Counsel of the House Select Committee, Robert Blakey, in serving the interests of the Intelligence Agencies (FBI-CIA) is suppressing this evidence, and has fired Committee investigators, and will fire more, because of their rebelling against Blakey's COVER-UP practices and procedures. I and my fellow researcher colleagues are speaking out all across this country, asking for letters, telegrams and cablegrams to be sent us DEMANDING that Blakey be fired immediately so that the TRUTH may reach the people. Please send these letters to me, Ted Gandolfo— 1214 First Avenue— New York, N.Y.— 10021— Phone: 288-1596.
