Dear Harold,

Right now I'm listening to Percy Foreman testifying to the Select Committee and I'm taping it as well as I have been doing with most of their hearings, disgusted though I am with everything they're doing. You're right, I shouldn't let it get me down but it does anyway. The only reason I'M taping it is for historical value. I've listened to most but there are some days I've missed though not much. I guess you're right..it WAS inevitable!!

Harold, in reference to your tape recorder, I've secured the use of my sister-in-laws recorder so I wont be needing yours. Frankly speaking, I cannot afford it anyway. We're rather broke here with my wife being the sole money earner now with my back the way it is and has been recently. We have all we can do just meeting everyday expenses of life. Thanks for understanding, Harold. I hope you're feeling better now. There will, I predict, NEVER be a true assasment of the FACTS surrounding these assassinations. The Select Committee is seeing to that!!

Take care and thanks again for everything

respectfully and sincerely,
