Dear Cyril,

It is the real Ted Gandolfo. Only he would conceive of such a stunt! With such an invalid reason for it. I did not respond to his offer of a free VCR, there was no flyer in what he sent me, and it is apparent that we've heard nothing about his major event. If we hear, I doubt it will be even tenable. Moreover, he is not capable of producing an "all-inclusive, total history of the JFK assassination."

The last time he made such a big claim he said he'd heard eight hours of what Fritz recorded when he interviewed Oswald. That came to ~~nothing~~ nothing. He told me he had the tapes in a bank box in New York.

Do I have to ask what kind of person pretends he is in terminal illness and then has died? If I recall correctly, first asking for money for his wife?

Maybe we'll hear farther from him about this, maybe not. We'll see.

For your information only, I took a selection of Livingstone's menacing letters to the states attorney's office, spoke to and gave them to an assistant who thought there might be violations of federal laws in some, and I'm to hear further after she reads them and then talks to her boss. My hunch is that while he has violated the Maryland code they will be unwilling to prosecute because it involves a so-called writer and a so-called book. He was to have turned the ms. in three weeks ago.

I'm reusing clear-sided paper, discarded pages, hundreds of them, of the new book.

In fact, I drafted the whole thing on such paper. Maybe saved a bit of oil and if not a tree, some branches.

Best wishes,

Harold

COPIES TO LANE, WECHT, WEISBERG-

Hello, Gents,

Yes, I'm still alive. I had to circulate the "news" that I died so as to provide anonymity for myself so that I could travel to somewhere to see some people pertaining to an important aspect of the JFK case you'll no doubt be hearing about in the near future, so it was worth it, OK??OK!!

Just thought you might want to read from an undated, but very recent new newsletter that is making its rounds across the country.

best,

P.S. In reference to the 22-hour videotaped all-inclusive JFK total history of the JFK assassination (enclosed flyer) I've self-produced and are selling like hotcakes..(thanks to Stone's "JFK" movie, if either/or all of you 3 gents would like a complete set..FREE OF COURSE.. just write me and let me know, OK??..OK!! T.G.

P.P.S. I've written to Senator Boren asking when they will release the JFK (Warren Commission & HSCA) files and got no answer in 3 months. Do any of you know when that's going to happen. Please inform me. Thanks.

Is this Ted G. for real?! I wrote a letter of condolence to his wife a year or so ago. What do you know about his rigged demise?
