Dear TG,

Thanks for your note of 2/24.

He is the O in N.O. Please do not advertise that I have these few copies because I want them to last and they are bringing more than twice this amount in rare books stores. Obviously a dealer or a fastax-bucker could make a haul and the few remaining copies would disappear fast.

If you have no desire for the Lou Gordon tape after you hear it I could probably find a use for it. I do not need it urgently if you want it. I have one. I am currently without facilities for dubbing, though.

WBX-TV had a panel show aired or taped Friday about 7:30. If taped probably aired today. George McMillan was to have been the guest. A tape of that I'd like very much if your friend made it or you know how to get one. Could be important.

What else could be helpful is what the papers available to you carry on the House Keystone Kops called a committee and the DJ task-force report on the King-Ray case, the grossest of these whitewashes.

Whatever now happens this committee is a certain loser. It can do no good with any expectation of credibility. The superficial indications are that Sprague is a wrecked. With or without the intent he has done it, knowing better.

May your lungs and your legs hold out and your new friend be an asset.

Best wishes,

Dear Harold Weisberg,

Does you are hoping for an early spring, too. We can sure see one - hope you are getting out as you wanted.

I did not write you without a note - I wanted the info on Osmond in New Orleans.

Enclosed please find a check for 2, for a copy of the book. I was under the impression you didn't have any.

CBST is a winner all rights - the grid. Where

the real powers are) has them rights where they want them. Thank you - was sorry to be on Jon Gordon's show - we don't have a tele, but a friend was going to tape it so I could hear it.

The Committee seems fond of making a force of itself - so far I haven't seen any real results. But see why they can't settle their arguments in private - stars to meet as stake to serve it up.

Was a talk at a local small college - got 35 people - an abating signatures on petitions. Have

which is a burden on me since
I'm far from rich. More
sheepbanging, but I feel I
should do it. How else will
anyone know?

Thank a guy who's very
interested, so maybe we can
go further.
Take care + I hope all

is well with you.
