

Dear Terry Garnett,

2/12/77

There is not much in your letter I can do anything about.

I have a few copies of Oswald in New Orleans, which I did not print and from which I received not a penny in royalties. I've been lending copies out for others to copy but except for a local professor not one has been returned! The last was CBS about 5 months ago. I offered to let them make all the copies they would need in return for a master from which I could xerox and the return of the book. Reminders mean nothing. They have sent me nothing - not even an apology for the ripoff. So none of the copies leave without prepayment. We do not let it be known we have obtained these copies so they can last. At \$21, which includes insured mail, there is no cash return. No profit.

What you are doing in your speaking is, of course, an ancient and fine American tradition. Keep it up but please without asking anything of me. I'm getting too tired. I have no help and I'm so far behind on filing and even reading what I'm forcing out of suppression. How I wish I had a nible, energetic younger person to help!

Our address was changed from 8 to 12. Please note. Not always forwarded.

Nothing new in court cases.

Do not build hopes up over the House committee. To date it all has been pretty bad. Authoritarian, wrong-headed, unscrupulous and ignorant.

Thanks for the return-addressed envelope. I appreciate any saving in time no matter how small. Especially because with my typing I have to double-check addresses.

Keep the faith, so what you can, do not lose your balance or perspective and just hope.

I guess my health is okay. With the severe winter I've not been able to do any real walking. This has weakened me some and fattened me much, which is not good. We are having a thaw and maybe I'll be able to ~~walk~~ walk again soon.

You are a dear, sweet person but please do not write me without need. I do not like not to respond to letters when I know the sincerity behind them but each letter I do write is at the cost of some work that will not get done.

Best wishes,

Dear Mr. Weisberg,

Thanks for your lovely letter and good wishes. When I don't write back, it is because I don't wish to interrupt you - not that I don't wish to!

I can very well understand that you don't have time to write articles that don't really get too much circulation - I thought afterwards that perhaps it was presumptuous of me to ask. In any case thanks for the permission to use what I want. I appreciate that.

Horrendous that you have to pay the government to get the proof that they are covering up a murder! What next? (I'm afraid to ask!)

Have started a small hornet's nest here - the Bangor Daily did me a favor (though they screwed up the evidence somewhat and have yet to print the corrections I requested) and did a small article titled, "Citizens Urged to Probe JFK Death". I said I'd be available at no charge to any group, for the purpose of discussing the evidence. I had spoken to the League of Women Voters and Mensa, and last month to a very small group of interested individuals. Since the article, I have had three more calls to speak and met another person who is very familiar with the evidence and who has volunteered to help in any way he can. I have all your books but the one on Oswald in New Orleans. Is it still available to buy? If not, is it possible to put a deposit on it and borrow it? I want to learn as much as possible (unfortunately with some limits as to \$\$\$), so that I am able to answer the questions put to me in the most factual way. I think that I have a pretty good grasp of a lot, but want to know more.

Hope your court cases are going well. How did the fight for the NAA stuff on the bullets turn out?

If you have written anything else, please let me know - or if there is any new information that I should know. As I have mentioned before, it is hard to get factual information and I am sorry I have to keep imposing on you.

I am trying my best to do my part and hope that the House can turn up something. It doesn't seem that it would be that difficult to at least show the WC was full of -----! Then it would seem they would have to go from there, but with the gov't you never know. I'm still trying (since July) to get an appointment with my Representative on this!!!

All good wishes and I hope you are in good health.

Sincerely,
Jerry Garnett
