

Warren Sees No Refuting JFK

Data Report

Breaks Long Silence on DA Probe

Chief Justice Earl Warren said in Tokyo he has seen no new evidence—including data compiled by Dist. Atty. Jim Garrison—that would refute the Warren Commission's report on the assassination of President Kennedy.

Asked about the sweeping, much-publicized investigation by Garrison, Warren said:

"I'VE SEEN absolutely nothing that conflicts with the report. I've heard that he claims to have such informa-

tion, but I haven't seen any . . ."

In commenting on the commission reports and the critics, the man who headed the intense investigation into the death of the President at Dallas broke a long silence.

The Warren Commission concluded that Lee Harvey Oswald acted alone in shooting the President from a sixth floor perch as Kennedy rode in a motorcade through Dealey Plaza.

Garrison claims that President Kennedy's death was the result of a conspiracy and that the conspiracy was hatched in New Orleans. He has said that Oswald did not shoot the President.

Clay L. Shaw, retired director of the International Trade Mart, has been indicted for participation in a conspiracy to kill the President.

WARREN SAID in Tokyo today, however, that he has never seen a single fact to contradict the Warren Commission's report on the assassination.

"I have found no facts that contradict in any way our report," he told the correspondents club.

For emphasis, Warren added that he has "absolutely no doubts" of the report's accuracy and scope.
