

5/17/68

Dear Lou,

Dione had a medical test on her leg yesterday. There was to have been immediate surgery today. There was not because the bone was broken during the tests. I asked her to be sure and get copies of these records for her trial for Brenner and she said not to worry, he had them. I asked what else he said and she said she hadn't heard from him. How, then, did he know, I asked. From Layton, who she has not seen!

If whoever meets me can have the car Jim said he would lend me, it would save a handling of my baggage. There will be no one where I am staying until supper time.

I have the list of things Moo asked me to do and will pick up on that. If he will not be there, I'd appreciate it if he leaves a note of anything he has done or now thinks need not be, so I won't waste any time. Also, if there is anything else he wants me to do. There are some leads in the Hornley letters I sent you. I'd appreciate it if you could have them Xeroxed before I get there, letters, nothing else, so I can work with them over the weekend. This should include the edited Boatright phone book.

I will also be wanting to talk to you about what I have learned. I have made tentative arrangements for the return of something in which you had an interest to be photographed.

Dione will be in a leg cast for 12 weeks, following which she will be operated on.

Sincerely,
