Rt 8, Frederick, Md. 21701

10/2/69

Dear Jim,

Since reading in the N.O. paper of your hospitalization I've been intending to write you, but the premsures of my own life frustrsted it. The last twontrips I de to your city apearentiy took a heavier toll on that I then anticipated. Fhysicaliy and emotionally they rere diflicult. On tue last one, I just blacked out for a while, a short while. In doing it I suffered an impairment to my sense of belance that has not yet returned to normal, and I injured a knee that epparently prefera ctoninuing to annoy we.

Since then I have been under medicalininjunction to teke it easier, get more rest, etc., and gradually I've gotten to the point miare on most nighte I get the generally-recommended amount of rest. Lest night, which is still tals night, is an exception, so I use the axtre time for wist I intend as a word of

The paper reporting your release fro", the hospital (if it cap be said that anytinins in yjur pepers is "reporting"), arrived yesterajay. I bope tions means thet you heve recoverad from wnatever is wrong with your cack.

You heve joined a rather large brotherhood. I've just "celebroted" my 30th year of memborghip. Nuch of the time has been uncomicrtable, but I cite the duration es evidence of a rether high survivel rete.

Back injuries, like women and friends, are of all difierent varieties. Some are worse than others. I an fortunete in sharing my life wita one not the worst, one with which I've been able to coexist once I determined thet, witha lifetine to share, I'd be the master. Since resdinct this conclusion, not a single thing that I've wented to do has my back kept me from doing.

Last weok, bending down for a light object, I kickad mine out agein. For several daya it wes impossible for me to streigiten up. Howevar, I kept up with ny progrma of physical ectivities, designea, hopefully, to restore some of the muscies lost in five sedentary yesrs. Although I hai to do it sitting down or kneeling, I took down two 30-foot trees and ther, Without e tractor, dragged each 400-500 feet, to where trimming them out would make less of a mess on the place. I do not know thet Jaul Bunyen would a prove, and it must lonk funny, were one to see a men swinging on axe while koeling, sawing while sitting, but the fact is I did fell the trees.

While I canint and do not pose as an expert on beck injuries, I do essure you thet some seem much worse to begin :rith than taey actuelly are. I hope yours is of this character.

The most difficult thing for me ib to stand still, in one position, as before a podium. But I have yet to flad the eudience that resented my sitting while I addressed it, as almost invariably I have.

And I do hope, if and when toe time for swinging in your campaign comes, you'll be able to.

My own output has been slowed somewhat by stretched pad-time and the physicel activity, but it remains one of which I dत net shame. Aside from continuing inquiries and keeping up with the day-to-day work, I've completed two books since I was last there. One, which runs not less than 800,000 words, is in the form of an addition to an earlier one not printed, COUP D'ETAT. This addition deals with tae King/Ray case alone. Several others, on which the research is completed, are in various stages of incompletion. My continuing investigetions have been rather fruitful. I think thay heve produced what may eventuelly prove to be the most useful evidence yet.

If it can be said the campsign cen be watched from your papers, I have been watching it with gome interest. Aside from any early newspaper experience, before I cust my first ballot I worked for the Senate. So, I see politics as other non-participants often do not. The lashington fost, while finding you a very dengerous man, conceeds. For this work of scholarship they assigned their top mixitixark investigatite reporter and the upgraded former chief of their nattonal desk.

If I can read between tine lines accurately, Cherlie Mard begen With the support of the local papers but didn't iive up to their expectations. Because I know, personally - first-hend, keving been told it by fealey - the high regard they had for him, I find the Statea' endersement of Conalick telling me Charlie is done. As I read what Conrick says, I reach other condiusions, and I am unimpresced aith the protestations of his poverty. He is, I feel, far from alone and, when he needs the wherewithall, will have it, probabiy in the strodch, when suddenly he'll heve the IV money he needs. I recall a. number of elactions in waich new technioues were developed for hurtine the popular incumbent. Two offthe clessics mere nere in haryland. A nonentity, Johr Mershall Butler, got into the Senste that way on one occesion. On another, basic chenges were brought geout in the form of government of tice county in which I then lited.

Connick's, I belleve, is non-locsi sponsorship. I belleve I can anticipete some of the last minute dirty-work. If it intereste you, I cen olways get to a clear phone in a very short time, ten minutes at most. I do not believe the NOAC ghones need be clear, however.

So, I hope you are feeling well, that whetever has happened to your back is not permanent, that it will not require surgery, gnd that you'll have the last-minute maregry energy for a successful conclusion to the compeign.

Good luck and best regerds to all.
