MEMORANDUM FOR: Director  
Federal Bureau of Investigation  
Attention: Mr. S. J. Papich

SUBJECT : Garrison Investigation and Ramparts Magazine

*Handwritten: "Operational at Ramparts", "John Raymond", "La"*

1. We have been informed that the Mexico City News of 11 December 1967 contains an article written by Perla Fishbein De Gonzalez. The article describes an interview which she had conducted in New Orleans during the preceding week with District Attorney James Garrison. The article quotes Garrison as saying that he believes that President Johnson was implicated in the assassination of President Kennedy and that he regards CIA as a fascist alter-ego in the United States.

a. De Gonzalez is presently collaborating with Ramparts on the case of one Joel David Kaplan, imprisoned in Mexico. A former Ramparts staff writer (since discharged), John Raymond, went to Mexico in May 1967 in an attempt to cover the Kaplan case.

b. Ramparts paid for De Gonzalez' trip to New Orleans and arranged for her interview with Garrison.

*Handwritten: "US", "REG-21"*

Another element is that Senator Robert Kennedy has been exerting pressure on the Mexican Government, presumably either personally or through
