Dear Moo.

Enclosed is Drener's "enswer" to the first of the two letters

He is write correct in saying "As sometimes happens, we draw different conclusions from the same facts." Like being blinded by the sun and concluding it is midnight. Or, witness the Warren Commission.

But the name Garon in his firm confirms a suspicion I've held from the beginning of the series, that Tom is one of of a major source of his dope. You have this masks. Is not Garon the name of Thom's Lawyer's a suspect it is possible for drafted the book, and that he had taken from the office some of those things Erener quotes directly. It is hardly likely this busy lawyer went all the way to Babylon, wong Island, to listen in on what Jin had to say on OLL.

Un the other held, maybe for her problems raising his fee (what IS he living on-aid he live on for that long period of one-day-a-week work?).

This there would seem to be a firm interest, But I'll not take the time to check tartindele, interesting as it would be to know the some of their better-paying clients are.
