Honorable William P. Rogers
Secretary of State
Washington, D.C.

Dear Mr. Secretary:

In winding up my affairs at the Department of State, there is a pending matter which I believe merits your attention.

Lee Harvey Oswald, the presumed assassin of President Kennedy, was allegedly present at a party given by a Mexican communist sympathizer and attended by the Cuban Consul, a veteran intelligence officer, when he was in Mexico shortly before the assassination. There are allegations that the Mexican Government may have been aware of Oswald's presence at that party and that the Cuban Government may have tried to intimidate others who saw him there.

A careful investigation of these allegations could perhaps explain them away. Until then, however, their public disclosure could reopen the debate about the true nature of the Kennedy assassination and damage the credibility of the Warren Report.

Since I was the Embassy officer in Mexico who acquired this intelligence information, I feel a responsibility for seeing it through to its final evaluation. Accordingly, I have prepared a memorandum (enclosed) explaining this information and its initial assessment, keyed to three memoranda of conversations with my Mexican informant.

I believe you would want to consider carefully whether to let well enough alone in this case, or whether the risks attending possible public disclosure of these allegations make further investigation warranted.

Respectfully,

C Thomas
Charles William Thomas

Enclosure:
Memorandum and four attachments.
