CPS net news (radio), 8 a.m. EST carried this item, without identification or description of boat, adding it was grounded on or off Cuba's north shore, and that Cubans aided and permitted Coast Guard to make the rescue. It also reported the survivors were "back in Miami".

Access to the Miami papers would be helpful but there is no reason to assume worth much trouble.

10 a.m. CBS news adds happened five miles off coast of Cuban, all were Miamians, all refused to say what they were up to.
