Mr. Philip Geraci II
2201 Green Meadow Rd.
Metsarie, La.

Dear Mr. Geraci,

It is about a month since I wrote you. I would appreciate an answer and those things you promised to send me. More than ever I am interested in the literature Philip had. You said you would get this back from the sheriff and lend it to me.

Since speaking with you, more than ever I have wondered how much this literature influenced Philip's thinking. The man from whom he got it has told friends of mine that he was (and possibly still is) a government intelligence agent.

My most recent information, which is now a month or so old, is that he was going to Viet Nam in a military capacity. He is an Army officer and was in the reserve.

Mrs. Geraci was going to check with her dentist to learn the date of the appointment the day she drove Philip and Vance to New Orleans. I repeat I think this is important and I encourage you to realize that it is to your and Philip's interest.

Sincerely yours,

Harold Weisberg
