

Who Killed JFK

To the editors: *Oh, Sun Times?*

The October 22 City File has attorney Elmer Gertz touting Posner's *Case Closed* about the JFK murder by saying "It should be forced down the consciousness of Oliver Stone and other falsifiers of history." That should be a tremendous force-feeding job, as over the years polls have shown a large majority of Americans believe that at least a conspiracy was involved. The last one I saw, in *Harper's*, was 68-32.

The establishment doth protest too much about the assassination. Repeatedly it is brought up, to me a sign that the great cover-up is not succeeding.

A week after they killed the president, I wrote to his brother Robert, the attorney general, and quoted Marc Antony: "Pardon me, thou bleeding piece of earth, that I am meek and gentle with these butchers."

I believe that in history the murder of JFK by the right-wing-military forces will rank with Caesar's.
