11/25/88

Dear Gerald,

Dave had told me of the article I'm glad to have. I've roughed out a long article in the form of a letter and will send you a copy. If not with this, as soon as I can go over and correct it. I write in haste to make the morning mail because we have your school's order for books. We can provide the xerox editions you have, which have the index, or returned copies of the first printing, which do not. I do not know which you would prefer or think the students would. Please let us know as soon as possible so we can fill the order. Either is \$26.00.

I didn't want to offer the reporter too much and thanks to some thievery by the people from the Kwitny report I have only one remaining print of the shirt collar picture. They stole even my original, which was actually an FBI original, not a copy of it. Also, Kwitny has not responded to my letter. His special was not at all like his fine book, *Ebdless Enemies*. See below at *

Sure, you are welcome almost any time. The only time I'm now scheduled to be away is 12/6, when I'm slated to go back to Johns Hopkins, I think for that day only, for them to examine eye surgery, which presently interferes with my vision, including when typing and correcting what I type.

I'm sorry that, as you'll see, we cannot offer you accommodations. The best nearby places, less than 10 minutes away, are the Holiday Inn and the Red Horse Inn. If you'd like I can see if Hood College has any special arrangements for visiting scholars who are not flush. Some years ago they got a nice room with nice people at a very reasonable price, for a week. He was working on his doctoral thesis, Bruce McKinney, now at James Madison, School of Communications, if you know him. **

I think Dave plans a thorough critique of the Nova show and of Lifton's fabrications. I prepared him for the latter. I've written Nova, warning them before they aired the show and rubbing it in afterward. If I don't get some response soon, when I get time I'll write WGBH. Do you know of anyone above the executive producer at Nova? I wrote her.

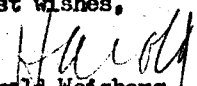

When you are here please examine a blue folder I keep in the desk organizer, holding a few things I used to use when speaking to local groups. They address the intent not to investigate, among other things. I use only some in my letter to the paper. You are welcome to copies.

* If not inconvenient would you please offer the reporter access to Post Mortem and indicate the shirt picture?

** Still mostly women's, no men's dorms.

You are correct about the fragments in the blood not having been reported. Not easy to visualize both the fragments and the blood under the jump seats.

Best wishes,

Harold Weisberg

Dear Mr. Weisberg,

Nov. 21, 1988.

You may not remember me, but a few years back I wrote to you in an effort to obtain copies of Whitewash for a special class I was teaching on the Kennedy assassination. Let me thank you again for all the work you did to fulfill my request. This coming January I will again be offering this special class. In preparation for this class I have again been reviewing your books and those of Sylvia Meagher and Howard Roffman and consulting with David Wrone who I was a student of many years ago. But I still feel my knowledge is incomplete in many respects. For example, I have done virtually no study of the House Select Committee on Assassinations. Also, I have frequently found myself at a loss to respond to all the misinformation which is being put out as the 25th anniversary approaches.

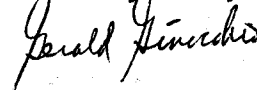

For example, I am interested in working up a thorough critique of this recent NOVA program (narrated by Cronkite of all people) and presenting a public showing of it along with a critical analysis. I believe I can pick out some of the gross distortions but I am sure I am missing some important points which I am not familiar with.

Another recent example is the article from the local paper which I have enclosed with my letter. I thought you might be interested in hearing what these former FBI agents have to say. Some of the things they say I have never heard of before, such as Stombaugh's claim that that fragments of bullet found in the blood were traced to the bullets allegedly fired from the Mannlicher-Carcano. Also, this story about the Kennedy family withholding the autopsy photographs and X-rays. I know you deal with that in Post Mortem, but I would like to have a better grasp of it. Incidentally, that same reporter interviewed me for a later article, but I am sure many people will put more credence in what these FBI men said.

In any case, what I would really like to do if you are willing and if it is possible, I would like to come to visit with you and go over some of these points with you. I could spend 2 or 3 days with you (preferably over a weekend and preferably sometime before Christmas).

I look forward to hearing from you and hope that you are feeling fine and have a good Thanksgiving.

Sincerely Yours,

My address is: Dr. Gerald Ginocchio
