Dear Gerry,

Thanks for your note, the pictures of your beautiful family and the remarkable Fletcher letter.

In the paper he was in charge of it all and in the letter to you he had only brief and unsubstantial connection with the whole thing. That is the FBI for you, to quote Marina Oswald.

While I don't think anything will make any difference to the local paper I think it might tend to indicate realities to them if they were to see that the man who told them he was in charge of everything told you he knows virtually nothing about anything.

Glad your trip was worthwhile.

We were glad to meet you. Jerry McNight is sorry he couldn't. (He did get the final done in time for it to be taken.)

Maybe there will be a next time and that time you can bring your family.

Hope you all have a good holiday and a good year,

Hardy

Dear Harold and Lillian,

Dec. 13, 1988

I want to thank you again for your hospitality. Although my stay was brief it opened my eyes to many things I did not see clearly enough before. Along with this note I have enclosed a few pictures of my family. My wife's name is Hanh-Trang and the kids are Claire (6yrs) and Nicholas (3yrs). Also pictured in one of the photographs is my wife's mother. Finally, I thought I would enclose a copy of the letter Fletcher Thompson sent (which was in my mailbox when I came back from Frederick). Of course he answered none of the questions I put to him. Perhaps I will try one more time.

Best wishes and have a healthy and happy Christmas and New Year.

Yours,

Gerry

P.S. I will be sure to return your copy of Oswald in New Orleans sometime in the beginning of January.
