

U
Dear Gerry,

5/2/94

Thanks for your 4/26 and the enclosed Times story. I was not aware the Times had carried it. I had it from Calif. and in today's ~~mail~~ mail from New Zealand. Note that neither the AP nor the Times gave the comment any significance, as a second shooter.

As yet the complete Case Open has not been retyped. Much has been. Dave will also have a copy. The woman who is doing it has computer access two days a week only and has other work to do. She's a fine person and is doing as well as she can.

Glad to get the Times clipping. I had that story from the west coast and in today's mail from New Zealand. But neither the AP nor the Times gave the readers the point of it all. SNAFU.

As yet not a peep from Posner. Daily some favorable comment on the book.

Thanks and our best to you all,

David

Dear Harold,

April 26, 1994

I received the copy of Case Open you sent in the mail yesterday. Thanks. I have not received anything from John Mooney at Carroll & Graf. I took some time to skim some portions last night and thought you made your case effectively, although it would have been nice to have incorporated notes and an index. I guess one possible benefit of not having an index is that it will force the reader to read the book rather than just pick and choose certain portions -- miss the forest for the trees, so to speak. As soon as this semester is over, I will give it a careful reading and try to spread the word locally.

I believe I will write Posner, as you suggested, to see if and when a reprint will appear. But I have at least two copies of the hard back that I will have access to, neither of which I had to pay for.

I have written to Jerry, telling him of my plans for next Jan. When I come up to visit, around the end of June, I will make arrangements to obtain the more complete version of Case Closed. There is no hurry for this.

Enclosed is a brief story about LBJ's conversations with Russell about the single-bullet theory among other things. You may already have it by now.

Say hello to Lillian. Hope you are enjoying the warm weather. It is already too warm here.

Best,
