

6/1/76

Dear Ms. Goddard,

Thanks for including the first envelope with your note of the 27th. I'll give it at the post office in the morning. They have renumbered us three times since we've been here + going on nine years. The problem is not with the postmaster or his top people. It is with the new help who couldn't care less.

I can't take time to read crap like Morrow's but for the next time I'm to do a show with him- the first is with my by phone in two days - I'd appreciate any more detail you can provide. I don't buy this kind of junk, either, because I can't afford it. It is not inconsistent with a spook "black book." This show, to which I agreed several weeks ago, is on a Pittsburgh station.

Matt Herron may have turned off on much. I wrote him several weeks ago and have not had a response. He was in Memphis within hours. You may remember this from Frame-Up. I have a reporter ~~friend~~ friend who has been following up very well but Matt has not been helpful. I mean recently.

It still is not easy for me to get into files. Matt took those pictures for Black Star for John Pilger, a staffer for a London paper, I think the Express but I'm not at all sure.

I will never be over this "phelbitis attack." The damage was permanent before I was hospitalized. However, I don't think it has unscrewed my head. It restricts some physical activity and I'm trying, usually with success, to get what for me is more sack time. My legs may annoy but otherwise I don't feel too bad and keep working.

The press was not honest about what Schweiker said. +t was with Hart, who assumes the basic assumptions. (Your original letter, which came today, is now more than two weeks old.)

Schweiker ~~has~~ appears to have other and sincere doubts.

Best regards,

Dear Mr. Weisberg

May 27

I've had a problem with your Route #. Hope I have the address right now.

Have recently read Robert J. Horro's Betrayal - a mischievous, dangerous book I think looks to me like a CIA job - or some part of the intelligence community -

— Jim

Please pardon the mismatch of stationery.

Miss Madeline Goddard

May 15, 1976

Dear Mr. Weisberg,

I'm amazed at how fast time goes by and ashamed that weeks have past since I received your kind letter with information about Matt Herron and about the "Al-bridge" bullet gash. My belated thanks. I did send a letter to Mr. Herron in care of one Joyce Herron in Santa Barbara. However nothing came of it and, since I am not pursuing the matter with very special interest, I'll just let it drop. That bullet gash (presumably a bullet, of course) does come back to plague us now and again.

Glad to have your recollection that the

bullet, if such it was, appeared to come from SW
toward NE.

Hope you are over that phlebotic attack,
or nearly so. Was glad to see that you were
able to appear on Mike D IS on the James Earl
Ray case. The judge's decision to block Ray's
appeal for another trial an example of the usual
vicious unfairness -

I find the current effort to tie JFK assassina-
tion to CIA attempts to rub out Castro outrageous
—especially in view of hostility between JFK &
CIA on just this matter among other things. I must
write Senators Schweiker & Gary Hart, The Church
Committee & especially Church himself have done
a lot of good work, some light in the general
darkness

Glad Hart here has suggested to Rep Edwards
of Calif. that he call witness on TWX matter.

To me Jimmy Carter looks like the best of
them ... hope he makes it all the way.
very best

P.S. "They" went off with my full
garbage cans the other day!

Madeline Goldard
