

C O P Y

Dear Ross,

Just returned from a long and tiring trip with a great stack of work.

Your work on Penabaz is worthwhile. It has been to me (I've included a little of what you've gotten for me in the unpublished "Coup d'Etat) and it will continue to have other values, so again my thanks. Please, do, continue to send me what you can get without spending lots of money on it, like in buying the tapes. However, if you take him, as on Courtney's show, that would be interesting.

As you listen to Courtney, note if he indicates any kind of relationship with Kent Courtney, who is another of the radical right, with a paper called "The Independent American". Also, if Courtney indicates anything is brewing in Haiti please let me know. Some of the mercenaries who were on his show seem to have an invasion brewing. They have so told me.

This was not a vacation, as my aching bones tell me. I made a working circle of the country. It was pretty successful.

Thanks again.

Sincerely,

Nov 14, 1968

Dear Mr. Weisberg,

The next issue of "Insight" will be out in a few days. We will send it and other back copies (if we can get them) when it comes out.

Courtney has devoted his show to local and election issues over the past few weeks. Nothing significantly interesting has taken place on his radio program. I still intend to ~~send~~ send tapes if anything arises. Plurabay hasn't been a guest. He's probably ^{soon} due ~~to~~ to appear. The last few days Courtney has been on a smear S.D.S. campaign.

Ross Goldberg

Hope you enjoyed your vacation.

Bye the way, Courtney, suprisingly enough, showed distaste for the John Birch Soc. on his show. He said to a caller that ^{COVER}

Weld dictates what you guys should do and believe. He thinks he's got the final answers to fighting Communism, etc.
