

6/10/81

Dear Earl,

After we spoke yesterday I checked the Alvarez file in my office. It is not complete but here are copies of a few of the things that may be of interest when the panel discloses ~~his~~ its report and, certainly, he engages in further propaganda pretended to be scholarship.

I have the full file, of the originals provided to me, elsewhere but I'm not now able to search for it. It includes more of his personal comments, some nasty.

The copy of his article as published in this file is so marked up I didn't make a copy. I probably have a clean copy of it and the typed ms among the other records.

Note that publication was delayed from January until September to be able to reach the maximum collegiate audience.

I never did get what I ~~xxxx~~ regard as a satisfactory explanation of why this should have been paid for with public moneys, either those of the State university or of the federal energy agency.

Or, for that matter, even that it was right and proper to spend energy money on political projects.

If I bump into the complete file I'll send more.

If you later need more, holler.

best wishes,
