Rep. Rodino Asks Details On Beret Case

8-14-69 By George C. Wilson Washington Post Staff Writer

Congress became bublicly embroiled in the Green Beret controversy yesterday when Rep. Peter W. Rodino (D-N.J.) announced he would demand an explanation from the Army's top command.

Rodino, as a start, said he will meet with Acting Secretary of the Army Thaddeus Beal at 10 a.m. today at the

Pentagon.

At that time, the congressman is expected to demand the release of Capt. Robert F. Marasco of Bloomfield, N.J.part of Rodino's congressional district.

Marasco and seven other Green Berets are in the Logbinh jail outside Saigon while the Army investigates the murder of a Vietnamese near Nhatrang on June 20,

The Army has said the eight Green Berets are suspected of premeditated murder and conspiracy to commit murder. But no formal hearing-such as a civilian type of arraignmenthas been held yet.

Rodino plans to argue that Marasco should be released from jail, at least until the decides whether lodge formal charges against

the suspects.

This opens up a new front on the case which threatens to put the Army, itself, on trial along with the Green Berets.

"The evil of secrecy sur-rounding these soldiers' arrests must be broken in order to render justice to the accused," Rodino said in a statement yesterday. He is a for-mer Army enlisted man who rose to the rank of captain and also is a lawyer.

The lid the Army tried to

put on the whole case already has been pried partly open. Hard information has leaked out that the Vietnamese man killed had been accused of working both for the allied side and Hanoi just before he was killed.
