

Dear Mr. Hughes,

5/11/92

You ask about my publication/nonpublication of pictures.

When I published the first books I was broke and in debt and could not afford to, so although I used some in the first two books, not as many as I'd have liked.

I have used them where I have them and regard them as essential. But not merely for sensational or dramatic purposes. As you'll see in Post Mortem.

Many of the pictures do not have the significance attributed to them by those who palm theories off as fact. And this includes the books you mention in your letter. Some of those theory-exploiters knew they were baseless. But they sold them anyway, one in particular for quite a sum.

As a general comment, the crime itself was never really investigated and wasn't intended to be. There thus are not factual leads to be followed and thus no factual basis for theorizing any solution.

In 1966 I thought otherwise but it was not long before I realized that we could do cui bono thinking only to eliminate, that there were just too many who could have seen benefit to getting rid of JFK or getting LBJ.

Thanks and best wishes,

Harold Weisberg

Dear Mr. Weisberg;

Having received my shipment yesterday from you, I started immediately with Whitewash II. After reading the first 42 pages and having you refer to the "original" Whitewash, I must submit my order for this book as well.

I must admit, that when I talked to you on the phone last month, I was not aware of how you referred to one book from the next. With this understanding, I now am requesting a copy of *Whitewash*.

With the last order I submitted to you, I requested that you autograph these books and you so very kindly did so and I appreciate it very much. I am asking that you again autograph this copy I am ordering today as well.

I do have one question that I am not clear on. The Photographic Whitewash has virtually no photo's of the pictures taken during this time and I am curious to know if you have ever published the photo's that you have in your possession. I would suspect that these would be of immense interest to the public.

I have recently read various books from Groden, Lifton, McDonald, Livingston and Dr. Crenshaw. I have spent many hours in the public Library scanning through the Warren Commission documents and outside of several actual cases that I am investigating of crimes that have occurred in my jurisdiction, I am totally frustrated as to why the notorious "ACLU" can continually mess up the Criminal Justice System (such as they did in the Harris execution recently) even more than our Legislators have and no one has ever attempted to bring justice to the name of Lee Harvey Oswald.

In just a few pages of the first book that I have received from you Mr. Weisberg, It is obvious to the most casual observer (reader) that you have done your homework. These books from you, autographed, will have a place of honor in my library and will be passed from generation to generation in this family. Thank you so very much for you interest and dedication to this very ugly subject.

Respectfully submitted
