Dear Mr. Hall,

I regret that NEVER AGAIN!, the postponing of which has never been justified, has again been delayed until, as of my last word, next March!

If I'd been able to publish it it would have been out in the first half of last year. But I'm 81, unwell, and can do nothing to compel its publication, which is contracted for.

And as you've observed, they've done nothing to promote Case Open.

They did eliminate most of it, too.

I have a very high regard for Cyril Wecht. He is a friend.

But I've not yet gotten around to reading his book.

Like most who are too busy, he sometimes may repeat what he hears from others who do not have it 100% straight.

But I do not say that about his book. I think I recall it from some earlier articles.

But he is great and he is fearless and we all owe him much.

Thanks for your good wishes,

Harold Weisberg

Dear Mr. Weisberg,

First let me commend you once again on ^{the} a spectacular book I recently purchased entitled C A S E O P E N!!! I was in Dallas last November for the JFK symposium and the dedication of Dealey Plaza as a National Historic site. During that week I heard more about Gerald Posner and his feces filled manuscript than I believe I ever heard of the Warren Commission Report, The House Select Committee Report and the movie "JFK" COMBINED!! It was simply sickening that he not only got all that FREE coverage for the garbage coming from his disposal, but most of the major media held it up to be Gods' honest truth!!! That is why I truly appreciate your effort once again to set the record straight. The sad fact of the matter though is that your publication has received little or no press and most likely and very unfortunately for those who do seek the truth is that they might never know of your book.

There are occasions in the community that I have opportunity to present my studies on President Kennedy, his life and times as well as his tragic death. The students I present to are often full of questions and it is then that I feel I have at least an opportunity to share honest information and suggest reading for those who wish further research. Needless to say, your books are mentioned at great length and endorsed as some of the most honest and factual matter presented on this crucial subject.

In your most recent book you mentioned that you will have another our soon entitled N E V E R A G A I N ! ! I wanted to ask you if I could order an autographed copy from at this time, and also I would like to purchase a copy of "OSWALD IN NEW ORLEANS: A CASE FOR CONSPIRACY WITH THE CIA?" I would truly appreciate purchasing either or both of these if they are available.

In closing, I have only one question for you this time. Do you consider Dr. Cyril Wecht a credible authoritarian regarding the physical evidence in the assassination of President Kennedy? He as a new book out entitled "CAUSE OF DEATH" ^{and} I am curious of your evaluation of his work.

Just for the record, I wrote you twice before when I lived in Evanston, WY, and have since moved back to my home state of Michigan. I received both of your gracilus responses. I certainly realize that you are a very busy person and sincerely appreciate the time you take to write back. You mentioned in your last letter to me that you were 79 years old (letter dtd 5-4-92) and not in the greatest of health. I can only hope that you will be with us for many more years to come and that your health remain good enough to continue your fight against the lies and deceit and assist in bringing the truth about the JFK case to the American people!

Sincerely,
David Hall
