Dear Hazel,

Please feel at ease over your unauthorized use of Whitewash IV. It is herewith authorized. But in the future with the larger British scandal sheet, which pay well and can well afford to, please refer them to me via their US staffs. The costs of obtaining these records is fantastic and never recovered.

If it comes out as you suggest, "Yorkshire Housewife reveals All," that will be better than a Yorkshire pudding. Your sheets are colling. Outz tabloids would have said "bares all."

Truth and fact are the biggest of all scandals, if the papers would only come to see it. Here they are sycophantic. There if they are it is without need or reason.

Last address I have for Ross Ralston may be that of his parents, 410 12 Ave. N Grand Forks, Minn. 56721.

When the article appears I'd appreciate a copy. Thanks for saying you'll send it. Zwart is crazy. Opinionated, unfactual, pseudo-intellectual, self-important and all much worse. As an example, one of his basic points for projection and what he does while claiming otherwise, theorizing, is the thicked copy of what was given to Johnson. The report was then on the presses. What was given to Johnson, and the press, the difference being Johnson's was bound, is page proofs. I have a set. This means twice as much paper or twice as much thickness because proofs are printed on one side only. Worst of all the Zwart's basic misconceptions. It is really a very stupid thing.

You ask about me. Well, what happened is serious and permanent but I make out okay. I avoid what I can't do. Mostly. I'm getting more sleep, concentrating on obtaining suppressed records and establishing an archive of them for the future. I tire more easily than before but still put in more than 16 hours a day. I travel when I must and can pay for it. (That I can't pay is the only reason I've not been to England.) I'll be going to Dallas soon to obtain more evidence for one of my suits for the withheld evidence. (These take much time and effort but are worth it even with bad judges.)

I hope you people will not be taken in by what you hear of the House of Representatives Committee. Bad people, wrong-headed to boot. Another cover-up, different nature.

I've already address a letter to the gentleman from Holland, thanks. If you are in touch with him we have to insist on prepayment in US currency and the kind of mail specified because of a long list of bad and costly experiences. Especially, alas, with some Hollanders, where I put out airmail, too.

Thanks for the contribution to my horrors collection. Zwart is.

Best to you all, sincerely,

23rd May, 1977.

Assassination Committee for the Truth

Dear Harold,

Enclosed a small gift for you..an interesting little exercise in words, and I cannot find out anything about the chap who wrote it.

After a TV interview last November, I had a large response with letters and people wanting to visit me..to look at the huge amount of material I have, and to ask questions about who did kill JFK? What struck me most was the fact that people knew very little indeed, and as time went on, and more people had visited, I became angry...angry at the media here for not printing much about recent events, in fact, not printing anything much after the Ruby trial, and Garrison's abortive trial. I decided to write some articles, putting forward the main flaws in the WR & 26 vols. I sent the stuff off to a Sunday "rag" paper, one with the largest readership..which has this large readership because of its contents..sex and such. I did not expect a result, except refusal. Blow me if the editor rings me immediately and says he couldn't put the material down until he had read all of it, and said it is "RIVETING material." Thunderstruck, I said he could call and look over what I have, and check out my facts.

And he came. Publication date is in about two weeks...and I have quoted my main source as you, from "Whitewash IV. I still cannot understand WHY this paper is so keen..I must have said something to get them hooked! They are making a big feature out of it, and being the sort of paper they are, they are re-writing, leaving out a lot of my details, and making it into a feature to grip "Mr Average"..that part worries me, as does the thought of how the adverts will sound on TV the Saturday before publication.."Yorkshire Housewife Reveals All..." I dread it all, yet want them to publish..its the best of all ways to get the British involved, and to teach them just why people will continue digging into who killed JFK...until that fairy story called an investigation is put where it belongs..down the nearest sewer. I hope you don't mind my quoting you and your books..it all happened so fast I didn't have time to write and ask you if its okay to quote you. I'll send a copy of the paper to you, of course.

A Dutch member of ISE (Kennedy Society) wants to buy all your books. As I do not know if all of them are available, do you mind replying to him direct, thereby saving postage and time. Its MR Ab Spelbrink, Ottersveen 179, SPYENISSE, Holland. He is a trustworthy person.

Hope you are feeling better..I keep up with news of you via Cutler and others.

All the best:
Hazel.

Do you know Ross Ralston's
address?
