Assassination Committee for the Truth

Dear Harold,

I am writing this with the knowledge that the articles are supposed to be published tomorrow..I was told so, but still won't believe it until I see the damn things in print. There is one BIG piece of news the editor made me swear to secrecy, and its this he told me the articles are being syndicated with a paper in USofA! If this is so, I've really made it..and hope you dedicated people in America can reap some benefits from it. I gave your name and address to the paper as one of the top researchers I think is the best..I was asked to choose four.

Everyone seems to think I am making a lot of money out of these articles, and on reflection, maybe I could have done so. But my only reason for writing and pushing for SOMEONE to publish nationwide, to inform the people just why we keep on digging into who killed JFK? If the reaction is as big as the editor thinks it will be, maybe there will be some money involved there. But what the hell, as useful as money is, my reasons are straightforward, no strings, just publish!

If the articles ~~can~~ are not in tomorrow, I don't know when they will be. All I can do now is wait until this evening, and then there should be a few TV adverts about it.

Right now I'm isolated in a beautiful costal village in Cornwall. I had planned my two-week anual break before I knew when publication was due. In a way, I'm glad, as JFK, assassinations and the rest of the world seem unreal. It the sea shining & shimmering a few yards away, with palm trees gently waving which make it all unreal. Yorkshire is a bleak & chilly place, where I'm under pressure all day, so this break is for me to unwind and get ready to get going into my usual ~~winter~~ winter passtime: reading JFK & American politics, plus my writing. Knowing from experience, I ask for my mail to be sent on so I can keep up with it. I went home to a mountain of mail the first year I took a break.

I hope for all of us that we do hit the headlines tomorrow. I'm very nervous and know I would be more so if I were at home. Being the sort of paper it is, I do not know what they will say about me. The press usually write idiotic stuff after an interview. Because of the "political dynamite" as the paper calls it, the editor's name is on the byline. A feature will be included about me, stating its my material & original work which went into the paper doing "the first major investigation into the assassination of JFK, and what the Warren Report does NOT say, yet does say."..Here's hoping....
