

September 15, 1999

Dear Harold,

With the anniversary of the Dealy Plaza affair upon us, the apologists and officialists are back at it trying to deflect attention from the actual event. The greatest effort seemed to be in September, 1993, with Posner's nonsense at the 30th year!!! The attached reprint from the Miami Herald of 9/12/99 is the latest weak attempt! I thought Nosenko's was the Soviets' Pontius Pilate effort and now they toss Mitrokhin and THE SWORD AND THE SHIELD into the mix. I am sorry about the lousy copy but I am sure you find this not to be news!!

The whole thing is such a farce!! You are right; it is two crimes!!! The killing and the cover-up. First there were those who wanted him out of office and second, those who were glad he was!!! In my previous study, research and analysis, I concluded the same was true in the Lincoln case - two crimes!!!

Boswell's "mistakes" are a joke. As I wrote before, my one nephew is a successful chiropractor in St. Paul (successful meaning he meets his payroll, pays his bills and shows a profit); his major income source is legal input as a "friend of the court" at \$500.00 an hour!! If he said his sketches, drawings, photos, X-rays, etc., were not meant to be accurate, he'd be laughed out of court!!!

Humes, reciting details to an artist in lieu of best evidence, does not jell!!! I've been in many seminars and management classes where the difficulty of communications is demonstrated. Someone in another room with chalk and a blackboard is "told" by someone in another room to draw a simple object that is being verbally described. The person cannot draw something as simple as a cigarette. And we are told an artist could very accurately duplicate a photo described to them by Humes!!!! I think not!!

And so it goes with the likes of Mitrokhin and his "revelations" screening and glossing over all the boo-boos!!! I still say the bullet magic never happened and that implies a lot of things!!!

The following cartoon had nothing to do with the JFK case, but, I always believed it was basically the cause of removing JFK from office since it was his intent to ultimately remove the pig!!!

Best regards, etc.,

Paul Haller
