

October 8, 1999

Dear Harold,

I can only hope that my best wishes and prayers for you and Lil are of some good - I get no feedback from the guy upstairs!!!!

The finches are Minnesota birds and some stay on all year especially with help from ~~some~~ people!! There has been some snow there already and I am about to leave on my trek. I have registered, have my room and am now hassling over a ticket. I got a card in the mail this very day touting a "whole country" trip for \$299 less 15% for seniors, but, the gal at the number knows nix about that. So I have to visit the local office and get it squared up!!

I am looking forward to seeing Mary and Hal and doing some research I hope will prove my position!! Lancer is in this for the bucks and cares not about "new" evidence or any revelations!! Hard to believe that 36 years have already pssed!! But, then who would have thought Year 2000 was upon ua????

I'll give your old friends your regards and I am ~~sure~~ sure they will reciprocate!!! Everyone is concerned about you and are eager for any input from me!

Best of everything from me,
Paul Waller

Paul
