I am finally getting all the loose ends from my trek tucked in and can get back to a reattack on the JFK "thing." Most of my problems from the trek relate to straightening out other people's screw-ups !! I wrote nd my vazious book clubs to send NO reply cards, editor's choices, etc, during my pabfence, but, when I returned there were books I did not order and their 2 57 attendant bills. I had a late charge on a credit card even though the check no was dated, cashed and deposited way ahead of the deadline. Then, I ordered Christmas gifts from NY catalog and got a duplicate order (one each to the ed gift receivers and a whole shipment to me) in fact one was a truplicate !! Ct madnd, of course, I was billed twice !! It takes time to get all these boo-D o oboos straightened out and obviously the computer is at fault !!! I need to get Hto Gary Mack since I was told at Lancer98 that Parkland released many more C pertinent documents to the Sixth Floor Museum. Also I want to write to some bei Lancer98 speakers and point out some holes in their presentations.

uo I wrote you how well Mary Fergell is doing and how great she looks!!!! (1) EThat, too, is a contact I do not want to lose !!

the gma. I told a couple of gals who are into COPA and the MLK murder that they are wasting time, if they do not staart with you!!! They are Tammy CArter and SOL Wasting time, it only that is okay?? I told them to take care becappe of your 44 G dand Lil's health situation !! I know that trying to be helpful at such a time uo we can be trying !!! Both of them are running off into dead ends !! I think they E hare actually doing grunt work for others at COPA. bi111

đ My book clubs are touting Wally Lamb's I KNOW THIS MUCH IS TRUE. When 13 that principle is apoplied to the JFK case, an interesting result occurs: ns When the decision was made for the murder, LBJ was considered to be Okay !! That immediately brings up another question: if someone elsew had been VP weed would the murder have happened?? For a lone nut the answer is YES and for plotters the answer is maybe BUT probABLY NOT "Of course, we must ask next, if JFK had not been president, a lone nut would still fire but it would be NO for plotters. one can only conclude that the murder fook place to elimin-ate JFK NOT to make LBJ president!!!! (C) ----= pr th =

uo I believe JFK was a constitutionalist and he felt the document was as nt viable and valid in 1963 as it was in 1776 !! He realized that the balance of T power with the legislature and judiciary, as well as the seperation of powers, 5 no longer expsted !!! The very departments, agencies and organizations that had been established to aid bhe fact-finding and decision-making of the exthe DO ecutive had actually sapped it !! He found this out in trusting those entities in tigh) Bay of Pigs fiasco. Except for Bobby, he had only himself to 173 believe N trust. He not only planned to shut off the spigots that were making men rich, in but, to eliminate them entirely !! His Ececutive Order 11110 restoring the p constitutional central bank in lieu of the Federal Reserve System.was a 03 concrete maneuver and example. JFK was murdered for what he was planning to # do NOT for what he had done !! Well over 50 years ago, a tract crossed my des! 0 -4 S beginning Clinton is that covered what would bring the USA down; it was titled, COWARDICE, AVARICE and GREED!!!

-more -

WEISBERG @=@=@=@

Ultimately, events of this magnitude and scope come down to money in some forem and the more I read of JFK's rise to power and his taking charge, the more I see the many facets of shoiety that bore pressure on the executive and the ultmate power he had;!!!

In Herb Paramet's book, the author points out that JFK was "determined to go down in our history books as a great president" and he was told civil rights was the best way to get there!! It is in this area that the bitterness of H.L. Hunt arises and the names of LBg and John Connally appear

There had to be a great fear among the spigot- and federal-trough swillers who feared a retyrn to true constitutional USA governing!!!! No one <u>owned</u> JFK and could send him marching off to their tune!!!It is interesting that LBJ was considered"okay." A return to the constitution was counter to the transition in progress of "new world." When brainless boobs can rake in billions without doing anything, whn is enough enough????

I saw it on a micro scale dealing with the council back in Minnesota. They wanted our farm for a park and held up the sale to a ceveloper for 5½ years!!! From outright greed!! Actually, they did not want it for a park but wanted to 'set it aside" under the federal Openn Space program. As I already wrote, the councilmen would "buy' land (take title) and 'resell it to the feds at a huge profit. We were offered \$350,000 for 40 acref, a large sum since Mom and Dad paid \$3000 for it in 1931!!!!! Then, "they" sell it to the feds for \$30,000 an acre (\$1.2 million) and pocket the difference - no questions asked !!! We said NO and they finally threw in the towel as they looked sillier and sillier in the public record - including cable TV !!! A developer bought it for \$447,000 and will build 23 fine homes all facing the Mississippi and St. Paul!!! We might be no better off than having taken the \$350,000, but, we do have the satisfaction that "they" didn't get their way!!!!! Before it was overwer, things got pretty bitter and "friends" were at each others throats !!! Greed popped up and strange "facts" were pulled in from deep in the background. People harbor dislikes and hates from way back !!!

I am still trying to sell here so I can move to Brandon to be near my son and new grandson. They are in Minesota this weekend since my son's wife never saw snow before. (We don't know about the grandson because he we can't talk yet!!) Too many places for sale in this complex. The kids up north inherit these places and thing a lump of \$20.000 is large!!! They apply the \$20 towards a Cadillac and come down to look at what they had inherited (and sold) and eventually they return in their Yugos and moan about how foolish they were!! Well, I'll wait it out and get my price.

I recall thinking about Ireland when my son was in Europe scouting for an office for a computer company he was working for. He wised up and decided he could do the same thing for himself!! He has sold systems to the army, the Pittsburgh pirates, Chile and other "biggies." Everone seems to want a turnkey system which opens doors for a lot of "geeks."

I do hope this letter finds you and Lil on the mend and I do not expect you the respond one-on-one as you have done in the past!!!

Best of everything to you both and I do hope you will be doing as well as Mary!!!!!

The very best

Paul Haller
