Goldwater, JFK Match

HAVANA (AP)—Prime Minister Fidel Castro predicts the 1964 presidential election will pit President John F. Kennedy against Republican Sen. Barry Goldwater of Arizona—"both cheap and crooked politicians."

"We have heard Goldwater is tough," said Castro in an impromptu interview at a Brazilian embassy reception this weekend.

"Well, if he is elected let him try his tough policies on Cuba. We will know how to defend ourselves and we will not be afraid to face him."

At this point Castro ended his discussion of the presidential election, saying he was not interested in getting involved in United States politics.

However, he noted earlier, he expected no change in U.S. foreign policy if there is a change in administrations. Goldwater has been an outspoken critic of Kennedy's Cuban policy. Last week he called on the Senate not to ratify the limited nuclear test ban treaty unless the Soviet Union agrees to pull all its forces off the island.

Bitterly denouncing what he called recent U.S.-prompted raids on Cuban territory, Castro said:

"We are prepared to fight them and answer in kind. United States leaders should think that if they are aiding terrorist plans to eliminate Cuban leaders, they themselves will not be safe.

"The United States is always read to negotiate and make promises which later it will not honor. This has happened to promises made during the October crisis. They have been broken as can be seen with new attacks.

Castro Blasts Raids on Cuba

U.S. Leaders Implicated by Aid to Rebels

EDITOR'S NOTE—Prime Minister Fidel Castro set up at a luncheon in the Brazilian Embassy in Havana Saturday night and invited to an impromptu interview by Associated Press correspondent Daniel Harker. Harker's report of the interview reached New York Sunday afternoon.

By DANIEL HARKER

HAVANA (AP)—Prime Minister Fidel Castro said Saturday night "United States leaders" would be "in danger" if they helped in any way to do away with leaders in Cuba.

Castro, after denouncing what he said were recent U.S.-prompted raids on Cuban territory, said: "We are prepared to fight them in any way possible. United States leaders should think that if they are aiding terrorist plans to eliminate Cuban leaders, they themselves will not be safe."

Speaking with this correspondent at a Brazilian National Day luncheon in the Brazilian Embassy, Castro also disclosed that he has not made up its mind about signing the limited nuclear ban treaty drawn up last month in Moscow.

RUSSIANS PUZZLED

The recent dispatch from Moscow indicated the Russians themselves have been puzzled by Castro's silence in connection with the treaty. Speculation there was that Castro was holding out for more Soviet economic aid and threatening to cast his lot with the Red Chinese.

Castro said Cuba is studying the treaty "with extreme care." "This is an important decision and we are not ready yet to make up our minds," he added. "The prime minister did not expect which points in the treaty are being given most consideration."

But he said: "We are taking into account the current world situation, which of course involves the Caribbean situation, which has been deteriorating in the last few days due to piratical attacks by the United States against the Cuban people."

TREND CHANGED

World affairs, he said, "seemed to be entering a more peaceful climate a few days ago, but now this trend has changed with attacks."

He accused the United States of carrying out "double-crossing and shifting policies."

He added: "The United States is always ready to negotiate and make promises which later it will not honor. This has happened to promises made during the October crisis. They have been broken, as can be seen with new attacks. But I warn this is leading to a very dangerous situation that could lead to a worse crisis than October's."

Castro then launched into a discussion of the U.S. political scene, saying he expects no change in Washington's foreign policy even if there is a change in administration after the 1964 presidential election.

BOTH 'CHEAP, CROOKED'
"I am sure it will be a fight between (President) Kennedy and (Sen. Barry) Goldwater (R-Ariz.). Both are cheap and crooked politicians," Castro said.
"We have heard Goldwater is tough. Well, if he ever is elected, let him try his tough policies on"

Cuba. We will know how to defend ourselves, and we will not be afraid to face him, but, in any case, I am not interested in getting involved in U.S. domestic politics."
