

Union leader - "Harris" in 11/6/74

In an effort to make contact with union people in regard to the "Bill Harris" a letter was its lawyer is and saw him, Tony Sabella, Saturday, 11/6/74, before we returned to DC.

Sabella remembers a man of Harris' general description but not of their name who had been sent in from North or South Carolina and then disappeared. White. Says he'd recall is he saw.

He is to talk to union people.

T.O. Jones seems to be the one to see. Several mentioned his name. I sent messages by two blacks, one a motel maid. Never had response.

Jesse Epps had been in the union then, is now out and on his own and not doing well. Had vibes from Chestain.

Sabella believes this man used a name other than Harris, saying he thinks he'd remember the name if he heard it.
