Dear Sol,

We have moved to a nice place close to Frederick and only 30 minutes further from Washington. I continue my work, have the fifth book ready for publication and fear the additional debt. We are well, tired, and wish we had the time for just visiting old friends.

Last two times I was in NYC you were not in. I would like to think I'll be there in the next couple of weeks. Don't know.

I am interested in a man named Arnold Hoveanke, said to live in Toronto, to have been a Lutheran minister in some southern state, a homosexual, radical right and violently anti-Kennedy (considered him a Communist). I am not certain of the spelling of the name.

If you have anything on this man or one who might be him, I'd appreciate it. If it must be held in confidence, please tell me and it will be.

Did you ever do a sequel to "Danger On The Right"? If you did, as I've heard, I do not have it and would appreciate a copy.

Saw the "lifts" about three months ago. They were well. Luke is back in this area but I haven't seen him. His phone is unlisted.

Hope Nancy got back well and wiser.

Best to you all.

Sincerely
