The Honorable Richard S. Schweiker, member
Senate Select Committee on Intelligence
Russell Senate Office Building
Washington, D. C. 20510

Dear Senator Schweiker:

On Friday, September 5th, Lynnette Alice Fromme ushered in the presidential assassination season of 1976 ahead of schedule. Since November 22, 1963 every presidential election has been determined by current or past assassinations.

The Central Intelligence Agency gave Harold Eugene Boro the .45 caliber pistol Fromme used for her threat to President Ford's life. Upon CIA instructions Boro, a retired career civilian employee of the Air Force, gave the pistol to Fromme. The Volkswagen Fromme and her roommate Sandra Good purchased, as well as their room rent, was paid for in \$100 bills. These were furnished to them by the CIA through collaborator Boro.

This is reminiscent of the Watergate breakin and coverup similarly financed with \$100 bills. I have presented the facts of CIA complicity in Watergate to the Congress.

The unprofessional attempt was not the CIA's idea, but Fromme's. The CIA's purpose this early in the 1976 assassination season was to build up verbal threats upon the President's life. This the CIA undertook to revive the public's acceptance of the discredited "lone kook" motivation for presidential assassinations. The CIA plans a professional assassination of President Ford before the 1976 elections. This remains their firm present capability and intention.

You were quoted in the Washington Post of September 8th as saying there are now indications that the Central Intelligence Agency and the FBI covered up evidence that could have affected the findings of the Warren Commission. On September 9th Senator Frank Church and Senator John Tower stated there is not "sufficient evidence at this time" to warrant reopening of the case. I have made 103 pages of counterintelligence evidence on the CIA available to the House and Senate Select Committees on Intelligence.

Oswald's address book included Rockwell's phone number. It did not include Milteer's, although Oswald had communicated with Milteer by phone.

Under CIA instructions to falsify evidence the Secret Service surrendered custody of the tape to the FBI for substitution. The FBI delivered the tape to Frankhouser, the informant who taped the Rockwell statement. Using it as a guide, Frankhouser remade the tape with J. A. Milteer and sanitized it. Both Milteer and Frankhouser were acting under CIA instructions and compulsion.

The original Rockwell tape named Lee Harvey Oswald as Rockwell's informant. The Secret Service accepted the substituted tape for employment in case the United States Senate demanded the original evidence. In CIA parlance, Senator Schweiker was to be guided into a meaningless "limited hangout."

The CIA's purpose in substituting Milteer's tape for Rockwell's, instead of sanitizing Rockwell's tape by deletions, was to avoid investigation of two additional CIA domestic assassinations and CIA's current domestic assassination capabilities and intentions. I stated in my report to you, Senator Schweiker, that the Nazi Party man that shot Rockwell was recruited by CIA's top domestic assassination planner, William S. Wood. He is a man with whom I have talked in my investigation.

The other assassination concealed by this CIA procedure was that of Daniel Burrows. The New York Times revealed that Burrows, an anti-semitic propagandist, was half Jewish. He was, however, an infiltrator of anti-semitic organizations. He did not believe in their purposes. He was also the man who composed the black-bordered anti-Kennedy right wing ad that appeared in a Dallas newspaper the morning of the President's assassination. He knew Oswald, the preplanning of the assassination and Oswald's role as patsy. He arranged with Bernard Weissman (see pages 48-53 of my report) to place the ad and acknowledge it as his own.

When Rockwell was assassinated, Burrows contacted Roy Frankhouser to try to induce him to reveal that Rockwell had made the tape and that Oswald was the source of Rockwell's information. Frankhouser contacted the CIA for advice on what to do in this predicament. He was told he would have to kill Burrows or he would be killed himself.

Professional CIA assassin Edgar Eugene Bradley (see report) visited Frankhouser. He briefed him how to fell his victim with a blow to the top of his head. He was told how to cover the crime as a suicide by blowing the top of the victim's head off with a rifle in his mouth, as though the trigger was pulled by the victim. Bradley was the man who escaped with the rifle that murdered President Kennedy. (See pages 13 and 14 of my report to you.)

Burrows was invited to Frankhouser's home to discuss the matter of revealing the contents of the tape. Frankhouser killed him as he was briefed to do under CIA compulsion.

Permit me to point out, Senator Schweiker, that except for the fabricated evidence the CIA has provided you, the report of your investigation to the Washington Star of Sunday, October 12th contains nothing new. Moreover, it provides no leads to the actual killers, collaborators or sponsors of President Kennedy's assassination. I remain at your service for this purpose.

Very sincerely submitted,
