Dear Mr Weisberg: 1 1 20 1856 tree of the state of the formal acts the late of

My sincere thanks for your quick response and Whitewash 4. Once again I cite you among Americans of great courage such as JFK who looked and saw things that ordinary men did not.

After my intense reading of millions of words by yourself, Joesten, Mark Lane, Popkin, Meagher, Lincoln Lawrence, Paris Flammonde, Buchanan, Sauvage, Josiah Thompson, Jim Garrison etc—Each has his own unique piece to add to the total puzzle. The events of Nov 1963 are of such great importance to America that I believe you all should cooperate. I had hoped that Fensterwalds CTIA would accomplish this purpose.

I am enclosing clippings and Joesten info for you.

I do believe Joesten made a very good contribution to the study of the

assassinations.

I have always loved the Kennedys. I can understand their constant refusals to investigate the assassinations as enough blood has already been shed. Never the less I am constantly haunted in my reading by thoughts that there may be other motives for their silence. Once again I have been robbed of my choice for the Presidency, Ed Kennedy, because of this damnable bannana republic where elections are decided by bullets.

Enclosed check for \$18.00-Please send Whitewash 2 and Photographic Whitewash. If Oswald in New Orleans becomes available

please send and I will send check.

I have sent some of Joestens advertising as a matter of interest to you.

My sincere best wishes to you and family,

Irvin L Heineman 3571 Horncastle Dr Evendale Ohio 45241 Thanks for your letter of the 18 and the enclosures. I'll read them when I have time. If I do not take care of each day's mail and orders they accumulate, so other work has to wait. I appreciate the kind comments. The others you mention, however, are no longer active.

The orders have slacked off a bit because I've done no radio broadcast for several days. This close to Xmas is not a good time. I've never done any in your area, if there are any talk shows there. Should there be and if you don't mind asking them, I d appreciate it. They not only provide am means of reaching people but they are the only means by whis we can sell the book and the money to rpint it was botrowed. What has been happening is that the stations phone me and I broadcast by phone. Thus far they have all told their listeners how to get the back and the price, which eases it here, eliminating the need for me to answers letters that ask only for the price.

We divide the work here. I write the letters, except to stores and libraries, and make the packages and my wife writes the letters I do not and does the bookkeeping. Lesar is still tied up on Ray case arguments and when he has finished them has other clients interests to take care of.
