

12/13/74

Dear Mr. Heineman,

Can you imagine my situation when today's mail brought three letters like yours and a number of orders for the newest of the Whitewash series (flyer enclosed) and those books have to be packaged and mailed and I'd still like to get a little work done? Full responses become a practical impossibility. Even the little time of addressing an envelope I do ask those who are not satisfied with what I write to save me. Plus the cost of a stamp when I have only the slight income the books bring and heavy debts. (The money to pay the printer for the new book was borrowed by my associate in it.)

I apologize for the typos because I'll not have time to read and correct. I do hope you expect candor. To give you less is to abuse you.

Joesten's first book can be defended as serving a need. It asked questions and questions had to be asked. It is a mixture of good fact, reasonable questions and the mistakes that today can and should be called irresponsible were they made today but in that day were not. However, since then he has been at his best a raving maniac and a plagiarizer who manufactured all sorts of lurid tales based on his embellishments of the work of others. He was crazy beyond description and is out with the earlier destroyers of credibility. He has many replacements busily at work. So, while I don't know and can't offer an opinion on what you refer to, this "special report to a 'Select group of Congressmen'" ~~xxxxxxxxxxxx~~ I'd also not heard was in the Congressional Record. I'd appreciate a copy. I can imagine CIA using this kind of device. Not doing it would surprise.

While I can't say that Joesten's work was disinformation for the KGB, it could not more ideally fit that kind of work for our own spooks. Like black books.

As of now Whitewash IV can be obtained only from me. Including postage it is \$6.25. We are getting out a mailing to libraries and bookstores that have dealt with us as soon as possible after Xmas.

I have no knowledge of behavior control.

I know of no reasonable basis for those Kennedy conjectures and they were not part of the investigation and can't really do anything about it. The first thing LBJ and Hoover did was freeze Bobby out.

My concerns and my have have been centered on fact and bringing that to light as best I can. The conjectures, which I find are almost without exception counter-productive and used to turn people of influence off, I leave to others.

Since you say you want WWIV I'll just send it and you can send me a check. I'll include a list of the others in the event there are others you want.

Best regards,

Fri Dec 6 1974

Dear Mr Weisberg:

After making a personal study of the Warren Commission Report and reading books by many of its critics and government related subjects, of course I too came to the conclusion that this report was the biggest farce in American History and that JFK was killed by conspiracy. I feel now that I must write men of great courage such as you in your fight for truth in government. You are among Americas finest. Every American should study the WCR and related subjects to get a clear picture of what this Government has become.

In searching the USA for the works of Joachim Joesten--libraries, bookstores, interlibrary loans from other states, Universities, the answer is always "Books Stolen or missing". Recently while on a trip to Washington D.C. my wife and I visited the Archives and the Library of Congress,--where after turning in my request slips for the works of Joesten, I was told that books were "Not on shelf" and were later found to be missing. After returning home I wrote the Lib. of C. in anger about my frustrations in my search for knowledge of my Government with copies to about one dozen Democratic Congressman. A few days later I received a phone call from the Lib. of C. and a letter stating that they would purchase the entire works of Joesten. Once again I wrote Congressman concerning the fact that they would be replaced. I do not believe that Joachim was ever part of the KGB disinformation section as alledged by the CIA in its special report to a "Select group of Congressman" (Congressional record). Probably a CIA cover story for JFK's Assassination.

We also visited the Archives and viewed the Zapruder Film, the Tippit file ETC. (found no pictures of Tippit).

I am now having the same trouble with your books--although the Cincinnati Public Library is the second largest in the USA, all they have is your first book "Whitewash". I have followed your court actions involving the Freedom of Information Act and would be grateful if you could tell where your books can be obtained including Whitewash 4.

I am deeply interested in Behavior Control and its possible political use by this government and foreign governments. A far more awesome weapon than the Hydrogen bomb. Subliminal Perception (Strobonic injection in England) was used on television in Europe and for other purposes than commercial, then was outlawed. Could it have been used in the USA?

The family of chemicals which increases human suggestability would be dynamite with subliminal techniques. Chemicals which distort the "Time Sense" of the brain and memory. Today with microminiaturization of electronic devices exotic chemicals, gases and above all Jose Delgado of Spain and his radio controlled electrical stimulation of the brain experiments of the 1960s. Today perhaps direct access to the brain is possible thru pulse modulated radio waves of the correct frequency. Of course these things exist in the "Top Secret" files of the Intelligence community and military available for some Nazi-oriented right wing nut to control mankind with.

I understand that brain surgery for behavior modification is taking place at a number of prison hospitals in this country. At least one of these has had a report of unauthorized brain surgery. In the 60s 22 hospital inmates were given injections of live cancer cells without their knowledge. Even today the Defense Dept is funding Mind Control projects.

Dorothy Kilgallen while on the Ruby Case for the NY Journal American tried to warn Lyndon Johnson about mind control or "cloud busting". Rubys EEG showed an unusual trace typical of someone under control (Hypnotic or otherwise.) Rubys ramblings about the Nazis, being injected with live cancer cells. David Ferries ability to hypnotize and his cancer experiments.

Dorothis strange death with alcohol and barbituates remains unsolved. It is interesting to note that John Daly moderator of the show "Whats My Line" and a good friend of Dorothis was married to Chief Justice Earl Warrens sister.

Some of the threads of the conspiracy were said to lead to Naval intelligence (Bill Coopers recent death in Baton Rouge). It seems I recall ONI funding of a project in New Haven Connecticut which involved Jose Delgado. Was this related to mind control?

I recall a plan by those involved in Watergate to introduce into the air conditioning ductwork a gas which caused marked changes in behavior at the democratic convention.

I would like to say a few words about Liza Howard-hollywood star, part of network tv news gathering team, friend of Fidel Castro (I believe she spent 3 weeks in Havana with Fidel negotiating prisoner release). Joined with Gore Vidal, Paul Neuman and other democrats for Keating in condemning Robert Kennedy as a "ruthless, authoritarian person" unlike JFK. Could Liza be the key to why the Kennedys refuse to reopen the JFK conspiracy issue? Did Bob as attorney general OK a Castro assassination (Unlike the Kennedy image)? It seems that Bob was used by someone in the events leading up to Nov 1963. Lizas strange death of alcohol and barbituates yet unsolved.

It was reported that Schlesinger monitored the military carefully during the Watergate hearings. This suggested to me that there exist in the military right wing nuts capable of a planned takeover of the USA. With Nixon gone I can still see disturbing signs of this in the way the economy is being manipulated.

3.

Perhaps if the economic conditions get too bad the American people will revolt-then we can have a police state complete with martial law. Gold ownership of course will move Fort Knox neatly into the safes of the oil companies leaving you and I with paper.

So much for all of this wild speculation. Thanks for listening-hope I have not been boring. I would be greatly in your debt if you could suggest a source of your books. If you know of a source of knowledge concerning behavior control that a lowly American citizen such as I might be allowed to read please pass it along.

I am a veteran of WW2 and am not a political extremist of the left or the right.

My sincere best wishes to you and family in the holiday season,

Irvin L Heineman
