Dear People,

As usual, I no sooner get some where than I'm tied up. Thanks again for the great week I spent in your home. I finally found a copy of my paper on the West Indies and will said it to you in a couple of days. Best of luck in planning a summer in the sum.

Botem and his girlfriend put on quite a show when they got to Phila. He had \$10,000 and she had a microskirt. The clincher came when she left their addresses with Vince and wrote out his name as Botem, and then corrected it to Potem. Speaking of agents, Rita Rollens, alais Lula Belle Holmes, the middle- aged negro woman who tried to give Vince info and later turned out to be an agent, showed up out here unexpectedly. She was posing as a agent of TACT (Truth About Civil Turmoil). My own crop of agents has been acting up since my return and been leaving me all sorts of information. Their day has come, however, since some informants have located what appears to be the local CIA headquarters. I'm going to watch it and see who comes in and out.

If you get a chance sometime, please give WDSU a call and see if they are willing to sell tapes of the Oswald Bringuier debate.

Vince and Livy loved your Christmas card. They didn't get one so if you get a chance they'd really love# to have one.

Vince's birthday was this past Saturday and Livy had a great surprise party planned. Even Garrison was going to try to make it, but as usual I was not around for the action.

I spent two days out in western Pa. taping my most productive witness and gathered some interesting new information. I'll tell you about it when I get it all put together. By the way, I should be sending you a letter and a tape for Garrison, sometime soon. When you get them, keep in mind that there is no rush so that you can get them to Jim at your convenience.

'I took Matt's advice and got Vince to reconsider the article. I wasn't home long enough for us to make any changes but I do think that he's reconsidering.

Well, I'm about out of time. I spent 4 hours on the radio and then gave a 4-hour talk on the assassination, leaving me with a sore throat. Take care and I hope, I'll see you in either Phila, or New Orleans. J hope I II see you in er uter mild, or new origans.
