

Epstein - was the husk

Basic Argument:

Popov - (1969) uncovered by Soviet's husk? By U.S. husk / Nosenko agent of Soviet Surveillance.

His credibility
(is this covered in
Her Journal?)

Brother of "Stov's partner" Stov is code for Anatoli Golitsin. He joins the game of KGB man Kovstak, who came to U.S. to activate the Soviet "husk" in 1967.

1978 - Agent "X" uncovered by Soviet CI.

1962 Oleg Penkovsky uncovered in Moscow as CIA Source.

Epstein & husk - Oswald was a KGB spy - promoted in info to Stov Soviet and the U-2. Defected to husk. Then sent back to the U.S. for other purposes. Epstein had husk Oswald not directed to kill JKK - but when he did, Moscow sent Nosenko to U.S. to provide cover for Oswald based this story credibly "Fedora"

Cobb > His cooperation with Langdon Committee -
See Wise for this.

Nosenko his "husk" husk // CI (Stafletan - Helen) believed that Nosenko was sent to deceive husk from Oswald and direct attention away from Soviet "husk" with CIA

Note Epstein on Oswald's travel to Helsinki - his
credibility as State.

classic intelligence cover (A CIA legend)

FBI on March 4, 1964, got Novak to agree to
testify before the W.C.

CIA documents in House were W.C. were from
Phonix - not intelligence. Helms - Angleton! Peter Boyly in their
