

8/7/69

Dear Billie,

Since writing you four day ago I have gotten in my possession copies of a number of documents I regard as of great importance and legal significance. Before writing you/Ron I wanted a competent legal opinion of their meaning. I now have it. What I wrote you of the potential of the information I had just then gotten is no exaggeration. On any other subject, with any other principals, disbarments would be likely.

Tomorow I will begin writing the last chapter of the addition to COUP dealing with Ray/King. I have tentatively decided to make this part of that rather than adding it to what I have already written.

My purposes in writing are to let you know I have the documentary proof of what I alluded to elliptically in my possession and to tell you I really am anxious to hear from Ron whenever that becomes a possibility. While he is away and, of course, immediately after his return, this is not possible. But as soon as he has his head above water, I would appreciate hearing from him.

Because it is my hope the Ray/King parts of this enormity can be extracted commercially, before writing any of the Sirhan/Bobby addition I will read this, correct it, and my wife will begin retyping it.

If you can give me the address of something calling itself "Candid Press" from the directories you may have, I would appreciate it. They published a picture I want to trace down and get. It shows King hanging in effigy - in the office of Ray's present chief counsel.

Sincerely,

Harold Weisberg
