Dear Paul,

Some year ago, when my copy of the memo of which I enclose a copy of the first page disappeared, probably misfiled, you sent me this copy.

In going over it today I saw that it is not complete. The last page you sent is 5 and that ends with an incomplete sentence.

I'll appreciate it if you would please send me the remaining pages. Thanks.

Now that Tom Davis has announced it in his catalogue and I've heard about it from a number in this country and even from Sweden and France, in the event you heard of what Carroll & Graf is to published as "The Complete Whitewash," the title is misleading and what I agreed to is a condensation into a single volume. I declined to agree to the reprinting of Whitewash. Too many problems for us now. Or should I have said now that between us we have accumulated more than 159 years but just less than 161 years? It is more than 160 years.

I've also just reread the 1/27 transcript. In his memo, on which I added what now I know is in error, Rankin says he informed the entire Commission of what he and Warren learned 1/24. He did not.

I've gotten interested in the business of Oswald as an informer again and if you know of anything that has come to light in recent years I'd appreciate a copy.

Fulton Oursler, Jr., was going to write about this, he told me when he phoned me, but I'm not aware of anything he published. That was about a year ago.

We hope you all have a fine holiday and a better year ahead than the recent years and that those ~~two~~ two beautiful children have grown as beautifully as in prior years.

Thanks and our best wishes to you all,
