

HOMOSEXUAL

SPY

By

LOUIS TROY

The true life story that has been suppressed since October 1963, when 25 brief manuscripts announcing the sale of "Homosexual Spy" were offered to both American and foreign publications, "mysteriously" disappeared in the U. S. mails.

Here revealed are the warnings that this "stranger than fiction" young man sought to disclose to the American President and public in October, 1963.

Now, for the first time--"HOMOSEXUAL SPY" is available to publishers here and abroad.

The President Louis Troy sought to warn about the internal security laxity and dangers to this nation, was assassinated three weeks after the author mailed 25 manuscripts to both American and foreign publishers. Now that the assassination of President Kennedy has already been carried out, time has changed conditions and removed persons from danger by revealing these shocking facts to the public, in "Homosexual Spy."

Here, revealed for the first time outside of Government Security files are the incredible stories of the "Anti-Communist espionage" acts which he carried out in the Caribbean area against Castro's Cuba from 1959 to 1963. For the late Dominican dictator, Generalissimo Rafael Trujillo Molina, he "blue printed" plans for an "assassination team" to destroy Fidel Castro and his top officers at the Havana Hilton in 1959. Later in 1961 he revealed for the first time the exact location of Cuba's missile bases under construction.

Here, revealed for the first time, Louis Troy discloses his attack plan "Fire-Ball" which was carried out in Algeria against the French colonist. As a member of the FLN'S Overseas Intelligence, the death sentence was carried out in "absentia" against him following his attack plan "fire-ball" which brought about the death of 27 French soldiers and two officers in Algeria. The incredible intrigues while serving Clandestine intelligence agencies in the Arab World, were festering sores to this young man who lost nearly a dozen intimate friends to various Arab assassination teams.

Here is the life story of one of the 20th Century's most paradoxical, mysterious, and controversial young men. So incredible were some of the clandestine intelligence adventures of this young man, that today nearly two dozen nations of the world maintain "up-to-date" dossiers and active files on this man and his "pigeon-drops" of intelligence activity.

This is the story that will shock a nation, it's leaders and it's various Intelligence agencies here and abroad.

"IT IS ALL SO STRANGE THAT "HOMOSEXUAL SPY" SHOULD HAVE BEEN DENIED PUBLISHERS IN OCTOBER 1963--EVEN MORE STRANGE THAT THE PRESIDENT THIS YOUNG MAN SOUGHT TO WARN WAS ASSASSINATED THREE WEEKS LATER. IT IS EVEN A PUZZLE THAT THE AUTHOR SURVIVED TO GET A SECOND CHANCE AT THESE DISCLOSURES." Malcom Elliot.

"I KNOW OF NO MAN ALIVE TODAY WHOSE "LUST FOR LIFE" AND ADVENTURE EQUALS THE INCREDIBLE AND FANTASTIC HAPPENINGS AND ESCAPADES OF LOUIS TROY." Ester Eastman, N. Y.

SPY

Oct. 18, 1963

HOMOSEXUAL SPY... Publications of the most timely and searching years of ESPIONAGE-COUNTER REVOLUTIONARY ACTIVITY-AND CLANDESTINE INTELLIGENCE escapades ever perpetrated by an amazing and paradoxical Greek-American MALE HOMOSEXUAL.

HOMOSEXUAL SPY, although only a year removed from active participation, yet with serious over-tones emanating from Western Nations Security involvements, here, never before revealed, are disclosures of American and Western Ally's Security Laxity as obtained and recorded by an American Homosexual Spy whose sojourns into 26 Foreign Nations is shockingly unveiled for the first time.

This is NOT SENSATIONALISM, but the shocking truth! This is information collected from a man who started his career at the age of 14 in San Francisco while working as a Flower Delivery boy for a homosexual Uncle, whose shop beside the Military Presidio brought him into intimate contact with Officers and Enlisted men who found the attractive boy a "discreet love child." Intimate affairs in apartments of various officers and soldiers who talked freely, he'd compile long records on Military Placements, Arsenals, and information he heard discussed as "Highly Classified." A childhood whim was herewith started, later to be filled with years of incredible daring!

During the War years of World War II and the Korean War, this strange young man moved from hotel to hotel on the West Coast, where near military bases, he'd gather information on Military Moves or tid-bits of information on Naval embarcations. During this time he'd often seek out War Correspondents, Overseas Military Photographers, and strategic personnel recently returned from distant military post, whereby with several young women friends they'd entertain extravagantly in search of information. Most of this information, rather than being forwarded onto outside interests, was forwarded onto Security Agency's of the U.S. Government, with warnings of "how military leaks" should be corrected.

During the late 1940's, while living in Hollywood, this "strange young man" lived with Communist Organizers and sympathizers, whereby he later turned over his accumulated information to Federal Agents. The turning point of his life was at the Founding of the United Nations Charter in San Francisco, where he met many Foreign Diplomats, a number of whom he arranged various social affairs and some "joie de vivre" for them. He found the Diplomatic Circles the most fascinating, and from that time on followed a fantastic pursuit which later lead him into nearly 26 different nations, collecting and forwarding information to various Western Ally's Foreign Offices.

HOMOSEXUAL SPY, is the actual accounting of the LIFE OF LOUIS TROY-, former Founder of TROY-WORLD-COMMUNICATIONS, INTERNATIONAL CAMPAIGNS, & PRESS ATTACHE SERVICE, which for 8 years was located in office in San Francisco, New York, and Rio, where it's various CONTACTS and INFORMERS accumulated information from nearly 26 Nations.

Personal Confidante of 2 DICTATORS, 1 PRESIDENT of a Latin Nation, 5 PRIME MINISTERS, and numerous Intelligence outlets in nearly a dozen nations, these are the undisclosed facts and happenings of a Pro-Western Spy, whose Homosexual background has furnished ANTI-COMMUNISTIC directives from dozens of nations in the past 10 years.

Here Mr. Troy, reveals the "ARCHILLES HEEL" of American & Western Security Branch's and troubles, as compared to the Communist Intelligence apparatus which he greatly respects. From Moscow to Washington's Foreign Offices, these implications and truths will reveal the un-disclosed secrets of the operatives, and how they obtain "sitting ducks" for BLACKMAIL and INTELLIGENCE BETRAYAL.

Declared a "SECURITY RISK" at an early age, Mr. Troy, although never paid or enlisted by American Intelligence Agency's, reveals his first meetings with American and Foreign Agents from San Francisco to Rio, Athens to Rome and Casablanca. His Intelligence & Espionage "BLUE PRINTS" given in person to the Dominican Dictator, whom he found a strong friend and worked to bring down the Castro Government as far back as Spring 1959. His "SECRET MISSIONS" in the Caribbean against Castro gathering data on the "Communist Take-over" early 1959 were forwarded to American Security & Latin Governments to no avail.

HOMOSEXUAL SPY, disclosed Mr. Troy's years in New York City where he arranged sex orgy's on Sunday afternoon for Latin Diplomats, and Evening Harem party's for Middle-Eastern Officials and Arabian Royalty. Here revealed are records and data of Mr. Troy's visits in securing information while on visits to North Africa, Spain, South America, the Caribbean, and Europe, where he was often challenged by both American and Communist Agents seeking information. The near murder of Mr. Troy by Algerian Agents in 1960 in France, who mistook him for a French Agent, all the while he had been supplying the FLN for 5 years with Intelligence Reports, was another turning point in the life of the fantastic man of effeminate ways.

Mr. Troy, while in the friendship of many well known Foreign Officials, Socially elite, and culturally recognized personalities, presents a background look into many social escapades or erratic sexual excessives and involvements of his American-British-and Western Diplomats. The almost unbelievable naivety of American-British Diplomats wives and there excessive social conversations which often lead to gems of governmental information and discussions, dangerous "brain-picking" tid-bits more dangerous than standard government "security risks" holding down desk jobs. From South American's teeming populace being swayed by Communist Intrigues and Counter-Revolution, to the Caribbeana Intelligence activity stemming from Pro-Western Camps, Mr. Troy reveals the danger spots heavily leased by Intelligent Agents. United Nations Compound, Miami, Virgin Islands, Bahamas, Puerto Rico, Caracas, Recife, Uruguay, London, Berns, Washington, New York, Berlin, Geneva, major city's infested with around the clock Intelligence activity.

Dear Mr. Troy:

Thank you very much for the several letters, the information contained therein, and the engaging photo of you dancing with a boy and a stuffed lizard. As you say, no one would suspect you of counter-revolutionary designs.

I appreciate your interesting reports and can only agree that the Caribbean is due for troubled days. I suspect, however, that most of this trouble will be in such places as Cuba and Venezuela. Our country is tranquil and will remain so.

Any additional letters you might care to send during your tour will be read with interest here. I wish you a pleasant trip.

Sincerely,

Dear Mr. Troy:

Thank you for your letter from Barcelona.
You certainly get around. I'll be interested in reading
an account of your adventures.

We are not unfamiliar with Ernesto Guevara,
better known in this area as "Che" Guevara. Thank you,
however, for your warning.

I am glad you enjoy the Carib reports. They
are prepared by a group of private citizens who, like
you, are interested in consolidating public opinion
against people like Ché and assorted other international
thugs.

Sincerely,

INTELLIGENCE tete-a-tetes

by LOUIS TROY

Author of "Homosexual Spy"

ESPIONAGE, the fourth arm of the "Armed Forces," Army-Navy, Air Force- & espionage, is the most fascinating arm of the body to protect the nation. It is entrusted to the greatest brains in the world.

The Egyptians called it over 5,000 years ago, "the greatest secret science," while Crassus, who defeated Spartacus, was a freebooter who gathered secret intelligence amongst the Grecian military command. King Louis XV's most famous emissary and spy was Chevalier d'Eon, the greatest female impersonator that ever lived.

"Battle of the Conjurers" as Churchill called the "Spy-boys," and "Spy game" is the second oldest profession in the world. Prostitution is the first!

The "Clock & Dagger men" in the espionage business must be masters of craftiness, deception, intuition, dedication, and if need be, ruthlessness... The Americans for a most part regard espionage with disdain and indifference, while the Russians since the time of the Czars value and consider their agents as real hero's. They are the aristocrats and are honored. Espionage is part of their political philosophy, while Americans are ashamed of this profession. Americans, and their spies are too inept, naive, over gregarious and typical "back slapping Joe's" who are easily recognizable. Americans make very poor spies as they are too "puritanical" and "normal" in retrospect to other nation's spies.

Somerset Maugham said while working in Switzerland and Russia for the British Intelligence that "Espionage is not a job for men who are squeamish or overly endowed with scruples."

In the battle of espionage, no American has ever been able to blackmail a Russian agent, while the Russians manage continuously to force Westerners to work and spy for them. 98% of the American traitors caught are heterosexual, while 2% homosexual. The majority of American traitors are in military service, Civil Service, or "classified employment."

"Security Risks" While Washington agencies would like the public to believe that "homosexuals" are "Security Risks", the actual convictions of American traitors, deserters, spies, and "counter-espionage" betrayers have been married men and women in our military and government. The majority of American traitors have been systematically "blackmailed" by foreign agents for reasons of "money", illicit sexual entrapments, and excessiveness as alcoholics and debts. Americans and British have betrayed their nations for love, but never has a Russian agent betrayed his nation for cupid.

"AMERICANS GIVE-AWAY INTELLIGENCE" No nation in the world reveals so much intelligence as the United States by its military and civilian periodicals, news medias, government printing offices, etc. . . . The latest Aviation Weekly magazine discloses information on the Laser Beam which should have remained "classified information." 40% of the material on our scientific, military achievements and successes are obtained by foreign agents through our excessive disclosures.

Statistics on the Spy Business: America has the largest number of electronic brains in the spy business. The C.I.A. has over 30,000 agents, and America supports over 25 various Intelligence Organs. The U. S. has over 25,000 professional investigators, not including counter-intelligence or espionage. The National Security Agency, (NSA) America's second Counter-espionage Service, employs 40,000 persons, with 10,000 people spread over more than 2,000 listening posts around the world.

Soviet-American Spy Ships & Satellites: This author is the only known American to ever visit a Soviet "Spy" ship trawler in 1960 in Naples Harbor, Italy, from which "he played" with both Soviet men and women on two periodic visits as an effeminate acting dancer-hairdresser. These mobile listening centers are spread across the seas of the world by the Soviets, British, American, French, Red China, etc.

Electronic brains maintained in the major nations of the world digest tons of material daily, from which select amounts of information is dissected and utilized. Electronic espionage, while costly, is the fastest and most efficient espionage science today. Today a few nations are transmitting information via infrared rays which transforms a voice into light by changing sound waves into electric waves into light waves, while at the "hush-hush" top secret labs beneath Stanford University, white garbed scientists are perfecting "light waves" and "micro sound waves" that are more destructive than any weapon in use today. We are now using a Laser Light of 3,000 watts, from which one nation is working on a billion watt Laser Beam which can vaporize any material or object on the earth.

Israel-Super Spy School: Israel, that tiny nation in the boiling Middle East has the finest "School for Spies." The Israeli Spy system extends into most of the Communist and Western nations of the world, and its agent are amongst the most skilled.

The Soviets have the largest number of paid agents and volunteer agents in the world, while England has the most daring and most casualties. France has the most unscrupulous.

The American Intelligence in South East Asia are the most duped, and the American Intelligence Officers and Command in Vietnam are altogether too naive and sympathetic. The Oriental mind having mastered centuries of Oriental and foreign oppression and domination, respects power, cunning, deceit, and "bankshi." The Oriental "plays all sides against each other" and where the American Puritanical (Protestant) sense of morality prevents itself from "fighting fire with fire" in the Orient, the Oriental utilizes sex, perversion, corruption, cunning, betrayal, non-loyalty, diabolical cruelty, and unemotional killing to serve its purpose.

In the Nazi files of the Wehrmacht Journal in Berlin in 1945 a document read, "British espionage is our most dangerous enemy. It has a tradition of three centuries behind it and has been a major contribution in the formation of its empire."

Author: If the American Intelligence is to succeed in Vietnam, or Asia, or in other parts of the world it must change its ways. It must become more scrupulous in its choice of methods. It must Sovietize its methods in relation to the non-Asian areas of the world. In Asia, to succeed, it must change its political philosophy and actions to that of the Asian seduction and unscrupulous mode of espionage and force.
