

Weisberg will amendment

When we deeded our home and the land on which it is to Hood College we were, for our age, in good health. Since then we have both suffered severe health problems. Lillian has been in a hospital or a nursing home all but two weeks of the past nine months. She is now frail and what little walking she can do has to be with assistance. Harold has spent more than the last four months in hospitals here and in Baltimore or in a nursing home. These problems have brought us to where we had to make tentative arrangements for a reverse mortgage. In addition, our great-niece, Mrs. Linda Hoffman, has taken much time, including time from work, to be of the great assistance she has been to both of us. We therefore want to deed the home and land to her with the hope that she in turn will deed it to Hood.
