

Dear Dave,

2/11/78

Jerry McKnight had a surprise visit this week from a student who asked that an internship be created, working for me. Oh happy day - she wants to be a lawyer.

Jerry is uncertain whether she is second or third year. Generally they do not do this until junior year. He'll be talking to the dept. head, Virginia Lewis, about this.

I solicit your suggestions. I do not know what is included in an internship. The first thing I thought of may be but was not intended to be sexist - when I heard both woman and lawyer: FOIA cases, that kind of work that is preparatory to law.

However, something dealing with the substance of the case might be better for her. There should be no dearth of worthwhile projects that can be of help in getting my records in order and ~~that~~ be rewarding to the student.

Maybe George and a couple of your other students may estimate what would interest one of their age and still be useful all around. Including to you.

I'd like to talk to her but meanwhile I solicit suggestions from you, JL and HR.

Lil has not forgotten the 226 affidavits. Great backlog of court-case records to be copied and this is tax season.

She'll get to them.

I also told ~~him~~ Jerry about CETA. They had heard of it but he had no special knowledge. He said thanks.

Best,
