Prior to suffering severe handicaps, I published six books on the assassination of President Kennedy and one on the assassination of Dr. Martin Luther King, Jr.

I need part-time help, mostly with filing new information and obtaining records in the files and returning them. The most important consideration is extreme care with the filing, for my present use and for when they will all be a permanent archive at Hood. Typing is an asset, not a prerequisite. We live about 10 minutes from Hood and I cannot provide transportation.

Until she graduates, Helen Wilson, 696-3237, can give an independent opinion of what the work is and whether or not she found it interesting. I suggest it can have value for journalism, history and political science majors, particularly those who may be looking forward to a thesis.

For one interested in flower gardening or wanting to learn about it, my wife can provide additional work.
