JOHNSON AND WARREN FORCED TO WHITEWASH JFK MURDER OR FACE NATIONWIDE GUERRILLA WARFARE! CONGRESSMAN IMPLICATED!

In an exclusive interview granted to Between The Lines, former undercover operative for the FBI, Harry Dean, has stated that the John Birch Society and the Drive Against Communist Aggression (DACA) had a heavily armed network of citizen soldiers ready to take to the streets in late 1963 and early 1964, if President Johnson and Chief Justice Warren did not quickly find Lee Harvey Oswald (a supposed communist sympathizer) guilty of the murder of President Kennedy. The threat was delivered to Johnson and Warren, within a few days after the assassination, by intelligence sources and by agents of the power structure that eliminated the President. LBJ had the choice - nation-wide internal strife or knuckling under to the threat and thereby giving this minority force a position of recognition. Johnson opted for the second choice.

Dean, an undercover operative for the FBI from 1960 to 1965, had been assigned by the FBI to infiltrate the Birch Society. During Dean's tour with the Covina Chapter of the Society he states they planned three major activities against John Kennedy: a planned assassination in Mexico City in 1962 that was called off; the assassination in Dallas; and the threat against a thorough investigation. In each case, according to Harry Dean, Congressman John Rousselot (R-San Marino) was involved in the planning. Rousselot was Western Director of the John Birch Society during the first half of the '60's.

During the years when Harry Dean had been acting as an active member of the Covina Birch Society, the main meeting place for all the anti-Kennedy activities was at a residence on San Pierre Street in El Monte. The Birchers were connected with anti-Castro Cubans, often mentioned as assassination suspects, through the DACA. The DACA was an anti-Communist organization directed by members of the JBS, which had attracted certain Cubans who were in the Los Angeles area during 1962-63, trying to enlist support in another invasion of Castro controlled Cuba. The DACA operated in Mexico as well as the U.S.. According to Dean, World War II hero Guy (Gabby) Gabaldon was the Mexican Director, while Ray Flieshman of Whittier was the U.S. Director. Another active member of DACA and the Covina JBS, who had a close relationship with Gabaldon, was Dave Robbins, who at the time ('62-'63) was a high ranking employee of the Fluor Corporation. (J. Robert Fluor and John Rousselot had been known to be close political allies). In a number of different circumstances, Dean was able to determine that Gabaldon, Robbins, Flieshman, and Rousselot had been involved in planning the aborted assassination attempt of JFK in Mexico City, June 1962.

Harry Dean had many occasions to observe and relate with much publicized Cuban-American Loran Eugene Hall-aka Lorenzo Pacillo-aka Skip Hall and Laurence Howard-aka Alonzo Escuirdo. Hall and Howard had a close association with former General Edwin Walker, of Texas, whenever Walker visited the Covina JBS. Dean recalls specific meetings where Walker, Rousselot, Hall, Howard, Gabaldon and himself (Dean) laid the plans to frame Lee Harvey Oswald, who they thought was a communist, as the assassin. Per Dean, Hall and Howard left the San Pierre Street house in October 1963, with arms and medicines, and the plans to implicate Oswald.

The subject of eliminating President Kennedy was never discussed as a subject of the Society's meeting, but Harry Dean claims the plans for the assassination were conceived in small group meetings. At one time or another Harry Dean was witness to the plans of the assassination of JFK by different combinations of John Rousselot, Loren Hall, Laurence Howard, Guy Gabaldon, Edwin Walker, Dave Robbins, Ray Flieshman, and not previously mentioned Covina JBS member Ed Peters.

YOU MIGHT THINK THAT SPONSORS WOULD BE JUMPING at the chance to plug their products during the up-coming highly-publicized televised memoirs of Richard Nixon. However, interviewer David Frost says such is not the case, adding that so far not one company has coughed up the \$60,000 to \$80,000 (Dollars) asking price for a 30-second commercial spot, leaving his four taped Nixon shows without a single buyer. A spokesperson for Syndicast Services, the Manhattan Agency responsible for dealing away sponsorships of the interviews, confirmed that 16 businesses have been considering plugs on the Frost/Nixon shows, but that no actual air time has been sold yet. Frost has been trying to convince ad buyers and T.V. stations that, in sponsoring his talks with the former President, they'll be (quote) "Performing a public service in terms of the first amendment right to know." At this point about 40 stations across the U.S. plan to televise the Nixon interviews, probably some time next May -
