Interview Log

5:42 PM Interview commenced in Room 429  
Holiday Inn, South, Route 183,  
Irvine, Texas

5:44 PM Furnished FD-395 (Adverse of Rights)  
read and signed same. Interview  
commenced by Bassett. Pearce states  
he can not say he ever saw the note  
(At time of assassination he was a  
complaint clerk sitting off the  
reception room.) He heard there  
was such a note and believes  
this was info furnished by Finner.  
But Pearce can recall on an unknown  
date Finner asked if Pearce knew  
who that was. Pearce states  
this must have been much  
later (than the assassination).  
If there was a note P. does not  
think he saw a note.

On 11/22/75 Pearce was on A/C as  
son had operation on knee that and  
had scheduled leave Thanksgiving  
week. After hearing Kennedy shot  
Pearce called office from hospital.  
Pearce soon after left hospital &  
returned to office. Can not recall  
his activities on 11/22 and stayed  
until about 11:00 PM. Also worked

to whether Jensen was in office. As best Pearce can recall after Ruby shot Oswald Pearce was assigned to special 44 case on Ruby. At some time Jensen told Pearce Oswald had been to the office & left a <sup>note or letter or envelope</sup> note for Hosty. He believes this was some weeks or months after the assassination. Pearce does not recall the <sup>note</sup> contents of note. It was Pearce's understanding that Oswald was a source of Hosty and in fact that Oswald came to office would not be unusual as sources & informants do sometimes come to the office. After going to agent's class and then returning to Dallas on assignment May 1974 Jensen at some time since then made a further reference to Oswald & a communication. This was said by Jensen before several individuals and not addressed solely to Pearce. On this occasion Jensen made some comment that the Oswald note made some reference to a bombing. Pearce said he didn't believe her.
