

Dear Dad and Sis,

I plan to call soon. I am back at work after having my gall bladder removed and then suffering a heart attack. Fortunately, the heart attack happened in the hospital, and I didn't suffer any loss of heart muscle or have any permanent damage.

I plan to work at least three more years, I hope my job, the benefits and the money.

Hope you both are feeling ok. We think of you often.

As ever,

Lannie
